Presentation Disclaimer

The information herein contains forward-looking statements. We have based these forward-looking statements on our current expectations and projections about future events. Although we believe that these expectations and projections are reasonable, such forward-looking statements are inherently subject to risks, uncertainties and assumptions about us, including, among other things: the intensely competitive Semi-conductor, and LED industries and markets; Cyclical nature of the semiconductor industry; Risks associated with global business activities; General economic and political conditions. All financial figures discussed herein are prepared pursuant to IFRS. All audited figures will be publicly announced upon the completion of our audited process.

Probe Card: Total Solution Provider

- **Comprehensive Product Range for Circuit Testing**
  全方位的產品布局

  MPI provides omnidirectional products to global customers, including fine pitch CPC, high speed VPC and low force MEMS solutions.

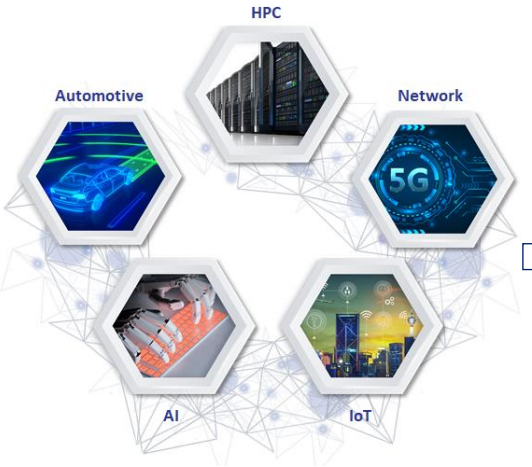
- **Solid Global Clientele 堅實的國際合作夥伴**

  MPI works closely with worldwide market leaders, especially for the AI, HPC application related.

- **Complete Probe Card Solution 完整的探針卡整合方案**

  Provide probe head, substrate(MLO/MLC/MLOC) and PCB one-stop service.

Fast Growing Applications



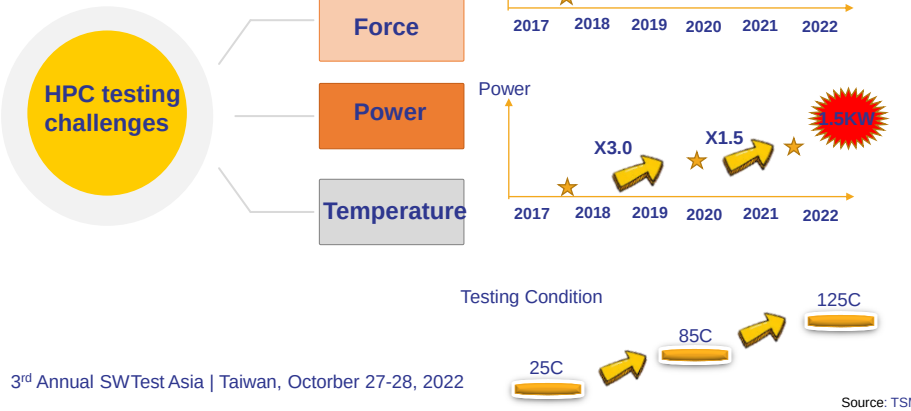
Future Trend for Probe Card

- Large size
- Hi pin count
- Hi CCC
- Hi speed
- Fine pitch
- Low force
- High/Low Temperature

Source: TSMC

HPC Challenges

High Force, High Power, and High Temperature are the challenges for HPC testing.



3rd Annual SWTest Asia | Taiwan, Octorber 27-28, 2022

Photonics Automation

READY FOR THE TEST™

Product Portfolio and Capability

- **High Power VCSEL Wafer Testing**
  Wafer / Board Prober Development
  Testing methodology Development
- **High Power VCSEL PKG Testing**
  PKG Handler Development
  Testing methodology Development
- **VCSEL / Photo-Detector Testing**
  Wafer / Board Prober Development
  Testing methodology Development
- **RF Character**
  Wafer Level RF Testing Integration
- **SiPh Die/PKG Platform**
  SiPh Handler Development
- **uLED Mass Production Methodology**
  Wafer prober for large quantity die testing method
- **Panel testing platform development**
  Panel / Panel in-process testing platform

Development Plan by Application

Optical Sensing	Optical Communications	Micro Display
➢ Focus on Sensing VCSEL Testing ➢ Production Wafer Prober in Low Temperature ➢ High Power Measurement Tool and Technology Development ➢ Flip Chip Wafer VCSEL testing Solution ➢ Package / Hybrid Device testing tool	➢ Focus on VCSEL/Photodetector Testing ➢ Wafer Prober for Dark / Responsivity / Capacity measurement ➢ RF Measurement Capability Development ➢ SiPh package testing approaching	➢ Lab and production wafer testing tool development ➢ Contacting Accuracy Improvement ➢ Innovative testing methodology ➢ Optical measurement in production methodology

PA: Work With Market Leaders

- **Value Enhanced Product Lines 客戶價值導向的產品線規劃**

MPI's experienced RD team comes across lighting and electrical fields with automation core technology that enables us to develop leading market solutions ie VCSEL & Micro LED.

- **Solid Global Clientele 穩固的全球客戶群**

MPI works closely with market leaders and international brand names for most advanced testing solutions.

- **Continuous Product Innovation 持續的產品創新**

Non stop RD investments helps MPI to provide high value added products that tackles clients' testing bottleneck.

Thermal: Customer Focus

- **Innovational Temperature System 創新的溫度測試系統**

Ongoing R&D investments in platforms and improvements leads MPI to meet customer demands. Thermal systems have a number of patents to provide efficient energy saving products that helps clients to fulfill ESG responsibility.

- **Top Skillful RD Team 頂尖優秀專業的研發團隊**

MPI's thermal solutions are developed by industry veterans with over 100 years of combined experience.

- **Deep Cooperation with Leading Customers for Engineering and Production demand**

與世界領導級大廠深度合作, 提供工程及量產需求

Product application expands to automotive , 5G/RF communication , fiber optic , and sensing fields.

AST: Unique Market Leader

- **Unique Global Position 全球獨特的市場地位**
Combining Analytical probing solution and RF measurement core technology , MPI is top solution provider for full range hi-frequency response measurement.

- **VOC Design 客戶導向設計**
Design based on Voice of the customer to full-fill customers' needs.

- **Complete Solution 提供完整的解決方案**
Various series of products to cover wide range applications include Device Modeling, RF & mmW, WLR, High-Power, Failure Analysis, Extreme temperature test …etc.
