## INDEPENDENT ACCOUNTANTS' REVIEW REPORT

TO the Board of Directors and Stockholders of MPI Corporation

### Introduction

We have reviewed the accompanying consolidated financial statements of **MPI CORPORATION** and its subsidiaries (collectively referred to as the “Group”), which comprise the consolidated balance sheets as of September 30, 2025 and 2024 and the consolidated statements of comprehensive income for the three-month and nine-month periods ended September 30, 2025 and 2024, and the changes in equity and cash flows for the nine-month periods ended September 30, 2025 and 2024, and the notes to the consolidated financial statements, including a summary of significant accounting policies. Managements is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting,” endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

### Scope of Review

Except for those described in the following paragraph of basis on qualified conclusion, we conducted our reviews in accordance with the Standards on Review Engagements 2410 “Review of Financial Information Performed by the Independent Auditor of the Entity”. A review of consolidated financial statements consists of marking inquiries, primarily of persons responsible of financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Basis of qualified conclusion

As described in Note 4(3), the financial statements of certain non-significant subsidiaries and measured based on their unreviewed financial statements as of and for the nine-month periods ended September 30, 2025 and 2024. Total assets of these subsidiaries and investments amounted to NT\$1,264,036 thousand and NT\$570,292 thousand, representing 6.09% and 3.99% of the related consolidated totals, and total liabilities amounted to NT\$1,009,367 thousand and NT\$253,523 thousand, representing 10.25% and 4.54% of the related consolidated totals, as of

September 30, 2025 and 2024, respectively. Total comprehensive income of these subsidiaries including share of profit of associates were NT\$25,571 thousand and NT\$12,494 thousand, constituting 2.95% and 2.43% of the consolidated totals for the three-month periods ended September 30, 2025 and 2024 respectively. Total comprehensive income of these subsidiaries including share of profit of associates were NT\$55,285 thousand and NT\$17,477 thousand, constituting 2.51% and 0.97% of the consolidated totals for the nine-month periods then ended September 30, 2025 and 2024 respectively.

And these investment amounts as well as additional disclosures in Note 13 “Information about Investees” were based on these non-significant subsidiaries’ unreviewed financial statements for the same reporting periods as those of the Company.

### **Qualified conclusion**

Based on our reviews, except for the effects of adjustments, if any, as might have been required had the financial statements of these non-significant subsidiaries mentioned described in the preceding paragraph been reviewed, nothing has to come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of September 30, 2025 and 2024, and its consolidated financial performance for the three-month and nine-month periods ended September 30, 2025 and 2024, and its consolidated cash flows for the nine-month periods ended September 30, 2025 and 2024, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Accounting Standard 34 “Interim Financial Reporting” endorsed by the Financial Supervisory Commission of the Republic of China.

# **MPI CORPORATION and its Subsidiaries**

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**NINE MONTHS ENDED September 30, 2025 AND 2024**

**(Expressed in NT\$1,000, Unless Otherwise Noted)**

**(UNAUDITED)**

### **1. Company profile**

- (1) MPI Corporation (hereinafter referred to as the "Company") was founded according to the Company Law and other related laws on July 25, 1995. Upon capital increase for several times, the Company's paid-in capital has been NT\$942,311 thousand and outstanding stock has been 94,931,136 until September 30, 2025. Upon resolution of the shareholders' meeting on June 12, 2018, the Company raised the authorized capital as NT\$1,200,000,000, divided into 120,000,000 shares at par value of NT\$10 per share. The board of directors is authorized to issue the stock in lots. NT\$50,000 thousand is withheld from the gross capital referred to in the preceding paragraph, divided into 5,000,000 shares at par value of NT\$10 per share, available for the subscription by exercise of stock warrants and issued upon resolution of a directors' meeting.
- (2) The Company and its subsidiaries (hereinafter referred to as the "Group" collectively) primarily engage in manufacturing, processing, maintenance, import/export and trading of semi-conductor production process and testing equipments.
- (3) The Company was approved to initiate the IPO in July 2001, and started to trade on Taiwan Stock Exchange as of January 6, 2003.

### **2. Date and procedure for ratification of financial report**

The consolidated financial statements have been approved and released by the Board of Directors on November 10, 2025.

### **3. Application of new standards, amendments and interpretations**

- (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRSs") Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by FSC and became effective from 2025 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

**(2) Effect of new issuances of or amendments to IFRSs Accounting Standards as endorsed by the FSC but not yet adopted by the Group**

New standards, interpretations and amendments endorsed by the FSC effective from 2026 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Specific provisions of Amendments to IFRS 9 and IFRS 7, ‘Amendments to the classification and measurement of financial	January 1, 2026
Amendments to IFRS 9 and IFRS 7, ‘Contracts referencing naturedependent electricity’	January 1, 2026
IFRS 17, ‘Insurance contracts’	January 1, 2023
Amendments to IFRS 17, ‘Insurance contracts’	January 1, 2023
Amendment to IFRS 17, ‘Initial application of IFRS 17 and IFRS 9 –comparative information’	January 1, 2023
Annual Improvements to IFRS Accounting Standards—Volume 11	January 1, 2026

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

**(3) IFRSs Accounting Standards issued by IASB but not yet endorsed by the FSC**

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, ‘Sale or contribution of assets between an investor and its associate or joint venture’	To be determined by International Accounting Standards Board
IFRS 18, ‘Presentation and disclosure in financial statements’	January 1, 2027
IFRS 19, ‘Subsidiaries without public accountability: disclosures’	January 1, 2027

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

IFRS 18, ‘Presentation and disclosure in financial statements’

IFRS 18, 'Presentation and disclosure in financial statements' replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management defined performance measures, and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

#### **4. Summary of Significant Accounting Policies**

The important accounting policies applied by the financial statements are summarized as follows: Unless otherwise provided, the following accounting policies have been applied during the presentation period of the consolidated financial statements.

##### **(1) Statement of compliance**

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Accounting Standards 34, 'Interim financial reporting' endorsed by the FSC.

##### **(2) Basis for preparation**

###### **A. Basis for measurement**

Except the following important items in the balance sheet, the consolidated financial statement was prepared based on the historical cost:

- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- (b) Financial assets at fair value through other comprehensive income.
- (c) Defined benefit liability recognised based on the net amount of pension fund assets less present value of defined benefit obligation.

###### **B. Functional currency and presentation of currency**

The functional currency of each of the Group's entities shall be subject to the currency applicable in the main economic environment in which its business place is situated. The consolidated financial statements should be presented based on the Company's functional currency, NTD. Unless otherwise noted, all of the financial information presented in NTD should be held presented in NTD 1,000 as the currency unit.

##### **(3) Basis for consolidation**

###### **A. Principles for preparation of consolidated financial statements**

- (a) The Group included all of the subsidiaries into the consolidated financial statements. Subsidiaries mean the entities controlled by the Group (including structured entities). When the Group is exposed to the changes of remuneration participated by the entities or is entitled to changes of remuneration, and is able to influence the remuneration by virtue of its power over the entities, the Group is held controlling the entities. The subsidiaries are included into the consolidated financial statements on the date when the Group acquires the

controlling power, and the consolidation shall be suspended as of the date when the Group forfeits the controlling power.

- (b) Unrealized gains on transactions between the Group companies are eliminated to the extent of the Group's interest in the associates. Accounting policies of the subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Elements of the income and other comprehensive income shall be vested in parent company shareholders and non-controlling equity. The total comprehensive income shall be vested in parent company shareholders and non-controlling equity, even if the non-controlling equity suffers loss.
- (d) Where the changes in shareholdings of subsidiaries don't result in forfeiture of controlling power (transactions with non-controlling equity), they shall be processed as equity transactions, which are identified as the transactions with parent company shareholders. The price difference between the adjustment value of non-controlling equity and fair value of paid or collected consideration shall be stated into equity directly.
- (e) When the Group forfeits control over its subsidiaries, its residual investment in the subsidiaries shall be re-measured based on fair value, and identified as the fair value of financial asset recognized initially or cost of the investment in affiliates or joint ventures recognized initially. The price difference between the fair value and book value is stated into current income. Where the accounting treatment for the values related to the subsidiaries as stated into other comprehensive income previously is identical with the basis for the Group's direct disposition of related assets or liabilities, namely, if the gain or loss stated into other comprehensive income previously would be reclassified into income when the related assets or liabilities are disposed of, the gain or loss shall be reclassified into income from equity, when the Group forfeits control over the subsidiaries.

**B. Subsidiaries included into the consolidated financial statements and status of change thereof:**

Name of investor	Name of subsidiary	Main business activities	Ownership (%)			Description
			September 30, 2025	December 31, 2024	September 30, 2024	
MPI	Chain-Logic International Corp.	Professional equipment agent and provides technologic service for the manufacturing of high-tech industry such as LED, LCD, Semiconductor, and etc.	100%	100%	100%	Established in March 1, 1994
MPI	MPI TRADING CORP.(Samoa)	Selling Probe Card and Test Equipment	100%	100%	100%	Established in December 22, 2000.
MPI	MMI HOLDING CO., LTD.(Samoa)	Investment activities	100%	100%	100%	Established in August 7, 2002.

MPI	MEGTAS CO., LTD	Test, maintenance, manufacturing and import/export trading of parts of semiconductors	100% (Note1)	80%	80%	Established in September 1, 2010. (Note1)
MPI	ALLSTRON CORP.	Manufacturing of high frequency wafer foundry measuring probing	100%	100%	100%	Established in March 31, 2006.
						The Company started on January 1, 2014 as the acquisition date, acquiring 100% of the shares.
MPI	MPA TRADING CORP.	Investment activities	100%	100%	100%	Established in April 12, 2017.
MMI HOLDING CO., LTD.	MPH Corporation (Hefei) Ltd. (Note3)	Selling and manufacturing of high-tech industry such as LED.	100%	100%	100%	Established in January 10, 2014.(Note2)
MMI HOLDING CO., LTD.	MPI (Suzhou) CORPORATION	Selling and manufacturing of high-tech industry such as LED.	100%	100%	100%	Established in July 11, 2017.
MPA TRADING CORP.	MPI AMERICA INC.	Selling Probe Card and Test Equipment	100%	100%	100%	Established in March 29, 2017.
MPI AMERICA INC.	Celadon Systems, Inc.	Selling and manufacturing of Probe Card , Test Equipment and High-performance cables	100%	100%	100%	Established on May 17, 1996.
						The Company started on September 9, 2021 as the acquisition date, acquiring 100% of the shares.

(Note1) The Company has passed the disposal of total share capital of the 80% ownership subsidiary –Megtas Co., Ltd. in the Board of Directors meeting on May 11, 2023. Subsequently, a sales agreement was signed with the buyer. However, the buyer failed to remit the payment to the Company as stipulated in the contract. Therefore, the transaction has been terminated. The Group passed resolutions at the Board of Directors meetings held on March 12, 2025 and March 7, 2024, respectively, to continue searching new buyers. For overall operational planning, the Group submitted a proposal to the Board of Directors on October 8, 2025, to liquidate and process the dissolution registration of its subsidiary MEGTAS CO., LTD.

In line with the Group's operational planning, the Company acquired 20% equity of MEGTAS CO., LTD. at KRW 8,300 per share, with a total investment cost of NT\$18,256 thousand. The acquisition date was set as June 30, 2025. A total of 100,000 shares were acquired, increasing the Company's shareholding ratio from 80% to 100%. This transaction reduced the difference between the actual acquisition cost of the subsidiary's equity and its book value by NT\$4,267 thousand.

(Note2) Lumitek (Changzhou) Co.,LTD passed a board resolution on November 7, 2024 to conduct a cash capital reduction, which was completed in January 2025, resulting in the repatriation of investment funds amounting to USD 2,600,000. This investment project had been approved by the Investment Commission of the Ministry of Economic Affairs. Among the investors, MMI HOLDING CO.,LTD passed a board resolution on

February 14, 2025, approving a cash capital reduction of USD 2,600,000 (equivalent to NT\$ 85,158 thousand).

(Note3) Due to operational needs, Lumitek (Changzhou) Co.,LTD changed its company name and business address upon approval by the Board of Directors meeting on May 9, 2025. This investment project had been approved by the Investment Commission of the Ministry of Economic Affairs.

The financial statements of the entity as of and for the nine-month periods ended September 30, 2025 and 2024 were not reviewed by the independent auditors as the entity did not meet the definition of significant subsidiary except MMI HOLDING CO., LTD., MPH Corporation (Hefei) Ltd. (formerly: Lumitek (Changzhou) Co.,LTD), MPI (Suzhou) CORPORATION, MPA TRADING CORP , MPI AMERICA INC and Celadon Systems, Inc.

- C. Subsidiaries not included into the consolidated financial statements: N/A.
- D. Different adjustment and treatment by subsidiaries in the accounting period: N/A.
- E. Nature and scope of the important restrictions on enterprise's acquisition or use of the group's assets and solvency: N/A.
- F. Subsidiaries over which the Group holds important non-controlling equity: N/A.

(4) Foreign currency

A. Foreign currency transactions

The foreign currency exchange shall be stated at the functional currency translated at the exchange rate prevailing on the date of transaction. The monetary items denominated in the foreign currency on the reporting date shall be stated at the functional currency translated at the exchange rate on the same day. The exchange gain or loss refers to the difference between the amounts upon adjustment of the valid interest, payment on the same period based on the amortized cost denominated in the functional currency, the amount translated from the amortized cost denominated in foreign currency at the exchange rate on the reporting date. The non-monetary items at fair value denominated in foreign currency shall be stated at the functional currency re-translated at the exchange rate prevailing on the same date of fair value measurement, while the non-monetary items at historical cost denominated in foreign currency shall be stated at the functional currency translated at the exchange rate on the date of transaction. Other than the foreign currency exchange difference generated from the translation of the application of IFRS 9 foreign currency items which in the process of applying the financial instrument accounting policies, financial liabilities designated as net investment hedge for foreign operations or qualified cash flow hedging, which shall be stated as other comprehensive income, any difference shall be stated as income.

B. Foreign operations

Assets and liabilities of foreign operations, including the goodwill and fair value adjustment generated at the time of acquisition, shall be translated into functional currency at the exchange rate prevailing on the reporting date. Unless in the case of inflation, the income and expense & loss items shall be translated into functional currency at the average exchange rate in the current period, and the exchange different generated therefore shall be stated as other comprehensive income.

When disposition of foreign operations results in loss of control, common control or any material effect, the accumulated exchange difference related to the foreign operations shall be reclassified into income in whole. If the disposition involves any subsidiary of the foreign operations, the relevant accumulated exchange difference shall be reclassified into the non-controlling interests on a pro rata basis. If the disposition involves any affiliate or joint venture of the foreign operations, the relevant accumulated exchange difference shall be reclassified into income on a pro rata basis.

If no repayment program is defined with respect to receivable or payable items of foreign operations denominated in currency and it is impossible to repay the same in the foreseeable future, the foreign currency exchange gain or loss generated therefore shall be held a part of the net investment in the foreign operations and stated as other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing exchange rates at the balance sheet date.

**(5) Current and non-current assets and liabilities**

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

- (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
- (b) Assets held mainly for trading purposes;
- (c) Assets that are expected to be realised within twelve months from the balance sheet date;
- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- (a) Liabilities that are expected to be settled within the normal operating cycle;
- (b) Liabilities arising mainly from trading activities;

- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

(6) Cash and cash equivalent

Cash or cash equivalent include cash on hand, demand deposits, and short-term, highly liquid time deposits or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

The bank time deposits to initially expire within one year are intended to satisfy the short-term cash commitment instead of investment or others, which may be readily convertible to known amounts of cash and subject to an insignificant risk of changes in value and, therefore, are stated as cash or cash equivalent.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. The Group recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
  - (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
  - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:

- (a) The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.
- (b) Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognized in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

(9) Financial assets at amortized cost

- A. Financial assets at amortized cost are those that meet all of the following criteria:
  - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
  - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortized cost are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognized in profit or loss when the asset is derecognized or impaired.
- D. The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(10) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(11) Impairment of financial assets

Including financial assets at amortized cost and accounts receivable or contract assets that have a significant financing component , at each reporting date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment

provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(13) Financial liabilities at fair value through profit or loss

A. Financial liabilities are classified in this category of held for trading-if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial liabilities held for trading unless they are designated as hedges, or financial liabilities at fair value through profit or loss. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss at initial recognition:

- (a) Hybrid (combined) contracts; or
- (b) They eliminate or significantly reduce a measurement or recognition inconsistency; or
- (c) They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management policy.

B. At initial recognition, the Group measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.

(14) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(15) Convertible bonds payable

Convertible bonds or issued by the Group contain conversion options (that is, the bondholders have the right to convert the bonds into the Group's common shares by exchanging a fixed amount of cash for a fixed number of common shares), call options and put options. The Group classifies the bonds payable upon issuance as a financial asset, a financial liability or an equity instrument in accordance with the contract terms. They are accounted for as follows:

- A. The embedded call options and put options are recognized initially at net fair value as ‘financial assets or financial liabilities at fair value through profit or loss’. They are subsequently remeasured and stated at fair value on each balance sheet date; the gain or loss is recognized as ‘gain or loss on valuation of financial assets or financial liabilities at fair value through profit or loss’.
- B. The host contracts of bonds or are initially recognized at fair value. Any difference between the initial recognition and the redemption value is accounted for as the premium or discount on bonds payable and subsequently is amortized in profit or loss as an adjustment to ‘finance costs’ over the period of circulation using the effective interest method.
- C. The embedded conversion options which meet the definition of an equity instrument are initially recognized in ‘capital surplus—share options’ at the residual amount of total issue price less the amount of financial assets or financial liabilities at fair value through profit or loss and bonds payable as stated above. Conversion options are not subsequently remeasured.
- D. Any transaction costs directly attributable to the issuance are allocated to each liability or equity component in proportion to the initial carrying amount of each abovementioned item.
- E. When bondholders exercise conversion options, the liability component of the bonds (including bonds payable and ‘financial assets or financial liabilities at fair value through profit or loss’) shall be remeasured on the conversion date. The issuance cost of converted common shares is the total book value of the abovementioned liability component and ‘capital surplus—share options’.

(16) Derecognition of financial liabilities

- A. A financial liability is derecognized when the obligation specified in the contract is either discharged or cancelled or expires.
- B. Where there has been a renegotiation or modification of the terms of an existing financial liability and resulted in an insignificant discrepancy which is less than ten percent of the estimated cash flows, the carrying amount of the liability is recalculated based on the modified cash flows discounted at the original effective interest rate. The gain or loss arising from the carrying amount after modification less the initial recognition of the financial liability is recognized in profit or loss.
- C. Where there has been a substantial renegotiation or modification of the terms of an existing financial liability and resulted in a significant discrepancy which is at least ten percent of the estimated cash flows, the carrying amount of the liability is recalculated based on the modified cash flows discounted at the original effective interest rate. The gain or loss arising from the carrying amount after modification less the initial recognition of the financial liability is recognized in profit or loss.

(17) Inventory

The inventories shall be stated at the lower of cost and net realizable present value. The cost should include the costs of acquisition, production or processing or others incurred when the inventory is sellable or producible and at the location where the inventory is sellable or producible, and calculated under weighted average method. The costs of inventories for finished goods and work in process include the manufacturing expenses amortized based on the normal productivity on a pro rata basis.

Net realizable value is the estimated selling price of inventories less all estimated costs of completion and necessary selling costs under the normal operation.

(18) Non-current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction rather than through continuing use, and a sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell and stop arranging the depreciation.

(19) Investments accounted for using equity method / associates

An affiliate means an entity in which the Group has major influence over the financial and operating policies but has no control over the same. The Group will be assumed having major influence when it holds 20%~50% of the voting right in the investee.

Under the equity method, the investment is stated at cost at time of acquisition initially. The investment includes trading cost. The book value of investment in affiliates includes the goodwill identified at the time of initial investment less any accumulated impairment loss.

The consolidated financial statements shall include the income from the invested affiliates recognized subject to the shareholdings and other comprehensive income upon adjustment made in line with the Group's accounting policy, from the date when the Group has major influence until the date when the Group loses the major influence. The unrealized gains from transactions between the Group and affiliates have been derecognized from the Group's equity in the investees. The unrealized loss shall be derecognized in the same manner applicable to unrealized gains; provided that the unrealized loss is limited to that arises under no impairment evidence is available.

When the Group's share of loss from any affiliate to be recognized on a pro rata basis is equivalent to or more than its equity in the affiliate, it shall stop recognizing the loss, but shall recognize the additional loss and relevant liabilities only when legal obligation or constructive obligation is incurred or the Group makes payment on behalf of the investee.

Where the Group forfeits its material influence over an affiliate when the Group disposes of the affiliate, the capital surplus related to the affiliate will be stated as

income, provided that where it still has material influence over the affiliate, the capital surplus shall be stated as income based on the proportion of disposition.

(20) Property, plant and equipment

A. Recognition and measurement

Property, plant and equipment shall be recognized and measured using a cost model, and measured at the cost less accumulated depreciation and accumulated impairment. The costs include the expenses directly attributable to the acquisition of assets. The costs of self-built assets include the costs of raw materials and direct labor, any other costs directly attributable to usable status of investment assets, costs of dismantling and removal of the items and recovery of premises, and loan cost that meets the requisite asset capitalization. Meanwhile, the costs also include the purchase of property, plant and equipment denominated in foreign currency.

When property, plant and equipment consist of various components, and the total cost for the item is significant and it is advisable to apply different depreciation ratio or methods, the property, plant and equipment should be treated separately (for major components).

The gain or loss on disposal of property, plant and equipment shall be decided based on the price difference between the book value of property, plant and equipment and proceeds on disposal of the same and recognized as the “other gains and losses” in the income statement on a net basis.

B. After cost

If the future economic effect expected to be generated from the after expenses of property, plant and equipment is very likely to flow into the Group and the amount thereof may be measured, the expenses shall be stated as a part of the book value and the relocated book value should be derecognized. The routine maintenance and repairs of property, plant and equipment shall be stated as income when incurred.

C. Depreciation

The depreciation shall be calculated at the cost of assets less residual value using the straight-line method over the estimated useful years, and evaluated based on the various major components of the assets. If the useful years for any component are different from those of other components, the component shall be depreciated separately. The depreciation shall be stated as income.

No depreciation of land is required.

The estimated useful years in the current period and comparative period are stated as follows:

Item	Useful years
House and building	
Plant and dormitory	20-50

Clean room	18-20
Electrical and mechanical facilities	5-20
Others	1-20
Machine and equipment	1-10
Transportation equipment	4-5
Furniture and fixtures	2-10
Research equipment	1-6
Other equipments	2-7

D. Depreciation, useful years and residual value shall be reviewed at the end of each fiscal year. If the expected value is different from the previous estimate, adjustment should be made if necessary, and the changes shall be treated as changes in accounting estimates.

**(21) Leasing arrangements (lessor) – lease receivables/ operating leases**

A. Based on the terms of a lease contract, a lease is classified as a finance lease if the lessee assumes substantially all the risks and rewards incidental to ownership of the leased asset.

- (a) At commencement of the lease term, the lessor should record a finance lease in the balance sheet as 'lease receivables' at an amount equal to the net investment in the lease (including initial direct costs). The difference between gross lease receivable and the present value of the receivable is recognized as 'unearned finance income of finance lease'.
- (b) The lessor should allocate finance income over the lease term based on a systematic and rational basis reflecting a constant periodic rate of return on the lessor's net investment in the finance lease.
- (c) Lease payments (excluding costs for services) during the lease term are applied against the gross investment in the lease to reduce both the principal and the unearned finance income.

B. Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

**(22) Leasing arrangements (lessee) – right-of-use assets/ lease liabilities**

A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.

B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable;
- (b) Variable lease payments that depend on an index or a rate;

- (c)Amounts expected to be payable by the lessee under residual value guarantees;
- (d) The exercise price of a purchase option, if the lessee is reasonably certain to exercise that option; and
- (e) Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
  - (a) The amount of the initial measurement of lease liability;
  - (b) Any lease payments made at or before the commencement date;
  - (c) Any initial direct costs incurred by the lessee; and
  - (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

- D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset and remeasure the lease liability to reflect the partial or full termination of the lease, and recognize the difference in profit or loss. For all other lease modifications, the lessee shall remeasure the lease liability and adjust the right-of-use asset, correspondingly.

**(23) Investment property**

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 50 years.

**(24) Intangible assets**

- A. Computer software

Computer software is stated at cost and amortized on a straight-line basis over its estimated useful life of 1 to 5 years.

- B. Internally generated intangible assets—research and development expenses

- (a) Research expenditures are recognized as an expense as incurred.

(b) Development expenditures that do not meet the following criteria are recognized as expenses as incurred, but are recognized as intangible assets when the following criteria are met:

- Ⓐ It is technically feasible to complete the intangible asset so that it will be available for use or sale;
- Ⓑ An entity intends to complete the intangible asset and use or sell it;
- Ⓒ An entity has the ability to use or sell the intangible asset;
- Ⓓ It can be demonstrated how the intangible asset will generate probable future economic benefits;
- Ⓔ Adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available; and
- Ⓕ The expenditure attributable to the intangible asset during its development can be reliably measured.

C. Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

D. Patent

Separately acquired patent are stated at historical cost. Patent acquired in a business combination are recognized at fair value at the acquisition date. Patent has a finite useful life and are amortized on a straight-line basis over their estimated useful lives of 11 years.

E. Other intangible assets

Separately acquired other intangible assets are stated at historical cost. Other intangible assets are intangible asset from lease and client base acquired in a business combination are recognized at fair value at the acquisition date. Considering to its economic time and should be amortized on a straight-line basis over its economic time of 4-8 years.

(25) Impairment of non-financial assets

- A. The Group will estimate the recoverable amount of the assets which show signs of impairment on the balance sheet date, and impairment loss would be recognized if the recoverable amount falls below the asset's face value. The recoverable amount means the higher of fair value of one asset less its disposition cost, or its useful value. Impairment loss recognized in previous years on assets other than goodwill may be reversed if the basis of impairment no longer existed or is reduced. Notwithstanding, the increase in book value of the asset resulting from the reversal must not exceed the face value of the asset less depreciation or amortization without impairment.
- B. The recoverable amount of goodwill, intangible assets with indefinite useful years and intangible assets not available for use shall be estimated periodically.

Impairment loss would be recognized if the recoverable amount falls below the face value. The impairment loss on goodwill shall not be reversed in following years.

C. Goodwill shall be amortized to cash generation unit for the purpose of testing impairment. The amortization is identified by operations to amortize goodwill into cash generation unit or cash generation unit group expected to benefit from the merger of businesses generating the goodwill.

(26) Reserve for liabilities

The reserve for liabilities shall be recognized when the Group has a present obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The Group's reserve for liabilities for warranty shall be recognized when the goods or services are sold. The reserve for liabilities shall be measured under weighted method based on the historical warranty information and potential results subject to the relevant possibility.

(27) Treasury stock

The issued stock recalled by the Group is stated based on the consideration paid for repurchase (including direct vested cost), recognized as "treasury stock" at the net after tax and presented as a deduction from equity. Where the gain on disposal of treasury stock is higher than the book value, the difference shall be credited under the title "additional paid-in capital-transaction of treasury stock". Where the gain is lower than the book value, the difference is offset against the additional paid-in capital generated from the transactions of treasury stock under the same type. Any deficits thereof shall be debited as retained earnings. The book value thereof is calculated based on the weighted average method according to the type of stock (common stock or special shares) and causes for the withdrawal.

Cancellation of treasury stock shall be credited under the title "treasury stock", and debited as "additional paid-in capital-stock premium" and "capital stock". Where the book value of treasury stock is higher than the total of the book value and stock premium, the balance is offset against the additional paid-in capital generated from the transactions of treasury stock under the same type. Any deficits thereof shall be debited as retained earnings. Where the book value of treasury stock is lower than the total of the book value and stock premium, the difference should be credited as the additional paid-in capital generated from the transactions of treasury stock under the same type.

(28) Revenue recognition

A. Sales of goods

- (a) The Group manufactures and sells a range of semi-conductor production process and testing equipments in the market. Sales are recognized when control of the products has transferred, being when the products are delivered to the wholesaler, the wholesaler has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the wholesaler, and either the wholesaler has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied. The sales usually are made with a credit term of 60-210 days after inspection. The term is consistent with market practice, therefore determining that the contract does not include a significant financing component.
- (b) The Group's obligation to provide a refund for faulty products under the standard warranty terms is recognized as a provision.
- (c) A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

#### B. Labor service

The Group provides semi-conductor production process and testing equipments proxy services. Revenue from providing services is recognized in the accounting period in which the services are rendered. The customer pays at the time specified in the payment schedule. If the services rendered exceed the payment, a contract asset is recognized. If the payments exceed the services rendered, a contract liability is recognized.

#### C. Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

#### D. Incremental costs of obtaining a contract

The Group recognizes an asset (shown as 'Prepayments') the incremental costs (mainly comprised of sales commissions) of obtaining a contract with a customer if the Group expects to recover those costs. The recognized asset is amortized on a systematic basis that is consistent with the transfers to the customer of the goods or services to which the asset relates. The Group recognizes an impairment loss to the extent that the carrying amount of the asset exceeds the remaining amount of consideration that the Group expects to receive less the costs that have not been recognized as expenses.

(29) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(30) Government subsidies

The government subsidies shall be stated at fair value when it is reasonable to ensure that an enterprise will comply with the conditions incident to the government subsidies and the subsidies may be received affirmatively. If the government subsidies, in nature, are intended to compensate the expenses incurred by the Group, the government subsidies shall be stated as the current income on a systematic basis when the related expenses are incurred.

(31) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at non-discounted amount expected to be paid, and stated as expenses when the relevant services are provided.

B. Pension

(a) Defined contribution plan

Under the defined contribution plan, every contribution made to the pension fund is recognized as pension cost in the period occurred using the accrual basis. The prepaid contribution may be stated as assets, insofar as it may be refunded in cash or the future payment is reduced.

(b) Defined benefit plan

Ⓐ The net obligation under the defined benefit pension plan is converted to the present value based on the future benefit earned from the services provided by the employees under various benefit plans in the current period or in the past, and the present value of defined benefit obligations on the balance sheet date less the fair value of the planned assets. An actuary using the Projected Unit Credit Method estimates defined benefit obligations each year. The discount rate shall be based on the market yield rate of corporate bonds of high credit standing that have the same currency exposure and maturity date as the obligations on the balance sheet date, but the market yield rate of government bonds (on the balance sheet date) shall apply in the country where no market of corporate bonds of high credit standing is available.

Ⓑ The re-measurement generated from the defined benefit plan is stated as other comprehensive income in the period when it is incurred, and presented in the retained earnings.

- © The expenses related to the service cost in the previous period shall be recognized as income immediately.
- ④ The interim pension cost applied the pension cost ratio decided upon actuation at the end of the previous fiscal year, and was calculated from the beginning of year until the end of the current period. In the case of material changes in market and material reduction, repayment or other important event at the end, it shall be adjusted and related information shall be disclosed pursuant to said policies.

C. Resignation benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Group will not state the benefits as expenses until the offer of benefits cannot be withdrawn or the related reorganization cost is stated, whichever earlier. It is not expected that benefits falling due more than 12 months after balance sheet date are discounted to their present value.

D. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares.

(32) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognized is based on the number of equity instruments that eventually vest.

(33) Income tax

- A. The tax expenses for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in

other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.

- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates and laws that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognized for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

- G. The interim period income tax expense is recognized based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.
- H. If a change in tax rate is enacted or substantively enacted in an interim period, the Group recognizes the effect of the change immediately in the interim period in which the change occurs. The effect of the change on items recognized outside profit or loss is recognized in other comprehensive income or equity while the effect of the change on items recognized in profit or loss is recognized in profit or loss.

(34) Business combination

- A. The Group adopts the acquisition method to proceed with business combination. The consideration for combination is calculated at the fair value of the assets to be transferred or liabilities to be derived or borne and the equity instruments to be issued. The consideration for the transfer includes the fair value of any assets and liabilities generated from the contingent consideration agreement. The cost related to acquisition is stated as expense when it is incurred. The identifiable assets and liabilities acquired from the business combination shall be measured at the fair value on the day of acquisition. Based on individual acquisition transaction, the elements of non-controlling equity which refer to the current ownership, of which the holder is entitled to the business's net assets on a pro rata basis at the time of liquidation may choose to measure the fair value based on the fair value on the date of acquisition or subject to proportion of non-controlling equity in the acquired identifiable net assets. The other elements of non-controlling equity shall be measured at the fair value on the date of acquisition.
- B. Goodwill arises when the transfer consideration, non-controlling equity of the acquiree, and the total fair value of the acquiree's equity already held exceeds the fair value of identifiable assets and liabilities. The price difference shall be stated as income on the date of acquisition if the fair value of identifiable assets and liabilities as acquired exceeds the transfer consideration, non-controlling equity of the acquiree, and the total fair value of the acquiree's equity already held.

(35) EPS

The Group will enumerate the basic and diluted EPS vested in the Company's common stock holders. The Group's EPS is calculated based on the income vested in the Company's common stock holders dividing by the number of shares of the weighted average outstanding common stock. The diluted EPS is calculated upon adjustment of the effect of all potential diluted common stocks based on the income vested in the common stock holders and the number of shares of the weighted average outstanding common stock. The Group's potential diluted common stock includes the stock options granted to employees.

(36) Information by department

The Group consists of various members including the operations engaged in operating activities likely to earn revenue and incur expense (including the revenue and expense from the transactions with the other members within the Group). The operating results of all operations are rechecked by the Group's operating decision maker periodically for making of the decision to allocate resources to each operation and evaluation of each operation's performance. Each operation's financial information is independent from that of the others.

## **5. Significant accounting judgments, estimations, and major sources of hypotheses of uncertainty**

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

### **(1) Critical judgements in applying the Group's accounting policies**

Revenue recognition on a net/gross basis

- A. The Group determines whether the nature of its performance obligation is to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for the other party to provide those goods or services (i.e. the Group is an agent) based on the transaction model and its economic substance. The Group is a principal if it controls a promised good or service before it transfers the good or service to a customer. The Group recognises revenue at gross amount of consideration to which it expects to be entitled in exchange for those goods or services transferred. The Group is an agent if its performance obligation is to arrange for the provision of goods or services by another party. The Group recognises revenue at the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the other party to provide its goods or services.
- B. Indicators that the Group controls the good or service before it is provided to a customer include the following:
  - (a) The Group is primarily responsible for the provision of goods or services;
  - (b) The Group assumes the inventory risk before transferring the specified goods or services to the customer or after transferring control of the goods or services to the customer.
  - (c) The Group has discretion in establishing prices for the goods or services.

### **(2) Critical accounting estimates and assumptions**

- A. Allowance for uncollectible of receivable accounts

The Group evaluates and estimates the collectible receivable accounts and allowance

for uncollectible accounts according to the loan quality and collection of debt from customers and based on the past experience in collecting allowance for uncollectible accounts. If some event or change resulting in failure to collect the debt shows, it is necessary to estimate the allowance for uncollectible accounts. If the projected collected cash is different from the estimation, the difference will affect the book value of receivable accounts and expected credit loss in the year in which the estimation is changed. As of September 30, 2025, the book value of receivable accounts has been NT\$1,940,438 thousand (exclusive of the allowance for uncollectible accounts, NT\$30,831 thousand).

**B. Evaluation of inventory**

The inventories shall be stated at the lower of cost and net realizable present value. Therefore, the Group has to decide the net realizable present value of the inventory on the balance sheet date based on judgment and estimation. Due to the rapid transformation of technology, the Group evaluates the value of inventories after excluding the torn and worn, out-of-fashion or unmarketable ones on the balance sheet date, and offset the cost of inventories against net realizable value. As of September 30, 2025, the book value of the Group's inventories has been NT\$4,241,571 thousand (exclusive of the allowance for inventory devaluation and obsolescence loss, NT\$587,459 thousand).

**C. Realizability of deferred income tax assets**

Deferred income tax assets shall be recognized only when it is very likely that there will be sufficient taxable income afford to deduct temporary difference. To evaluate the realizability of deferred income tax assets, the management has to exert judgment and estimation, including the hypotheses about expectation toward growth and profit rate of future sale revenue, applicable income tax credit and taxation planning. The transformation of global economic environments and industrial environments and changes in laws and regulations, if any, might result in material adjustment on deferred income tax assets. As of September 30, 2025, the deferred income tax assets recognized by the Group have been NT\$174,439 thousand.

**D. Recognition of revenue**

In principle, sales revenue is recognized at the time the earning process. The related reserve for liabilities is provided based on the estimated after-sale warranty cost potentially incurred due to historical experience and other known causes, and stated as the sale cost in the period in which the product is sold. The reasonableness of estimation is also reviewed periodically. As of September 30, 2025, the reserve for liabilities recognized by the Group have been NT\$19,631 thousand.

**E. Calculation of net defined benefit liability**

When calculating the present value of defined pension obligations, the Group must apply judgements and estimates to determine the actuarial assumptions on balance

sheet date, including discount rates and future salary growth rate. Any changes in these assumptions could significantly impact the carrying amount of defined pension obligations. As of September 30, 2025, the carrying amount of net defined benefit liabilities was NT\$22,690 thousand.

F. Impairment assessment of goodwill

The Group assesses impairment of goodwill based on subjective judgment which includes identifying allocating assets, liabilities and goodwill to related cash-generating units to determine recoverable amounts of this unit. Please refer to Note 6(10) for the information of goodwill impairment. As of September 30, 2025, the goodwill of the Group amounted to NT\$217,711 thousand.

## 6. Notes to Major Accounting Titles

### (1) Cash and cash equivalents

	<u>September 30, 2025</u>	<u>December 31, 2024</u>	<u>September 30, 2024</u>
Cash:			
Cash on hand	\$ 6,210	\$ 5,677	\$ 6,768
Cash in banks:			
Checking deposits	10	10	10
Demand deposits	3,193,527	3,254,362	2,098,665
Time deposits	1,852,654	435,000	649,036
Deposits in transit	85,735	—	—
Total	<u>\$ 5,138,136</u>	<u>\$ 3,695,049</u>	<u>\$ 2,754,479</u>

The bank deposits provided by the Group as specific or restricted use have been re-stated as other current assets and other non-current assets. Please see Note 8.

### (2) Financial assets at fair value through profit or loss

	<u>September 30, 2025</u>	<u>December 31, 2024</u>	<u>September 30, 2024</u>
Current items:	\$ —	\$ —	\$ —
Non-current items:			
Financial assets mandatorily measured at fair value through profit or loss			
-CDIB-TEN Capital Limited Partnership	17,500	—	—
Valuation adjustment	(942)		
Total	<u>\$ 16,558</u>	<u>\$ —</u>	<u>\$ —</u>

A. The Group invested in the Shui Mu Development Fund in October 2024. The Fund is planned to be externally raised and established by China Development Capital Management Consulting Co., Ltd. and Shui Mu Capital Co., Ltd. as general partners. The Group, as a limited partner, has committed an investment amount of NT\$50,000 thousand, representing 1.81% of the total committed capital. As of December 30, 2024, the Group has contributed NT\$17,500 thousand, which is recorded under the “Prepaid Investment”, the limited partnership was established in January 2025 and

was reclassified as a financial asset at fair value through profit or loss, measured using the net asset value method.

B. Amounts recognized in profit or loss in relation to financial assets at fair value through profit or loss are listed below:

	<u>Jan 1~Sep 30, 2025</u>	<u>Jan 1~Dec.31, 2024</u>	<u>Jan 1~Sep 30, 2024</u>
Financial assets at fair value through profit or loss			
Fair value change recognized in profit or loss	\$ (942)	\$ —	\$ —

C. As of September 30, 2025, financial assets at fair value through profit or loss were not pledged as collateral.

D. Information relating to risk of financial assets at fair value through profit or loss is provided in Note 12(2).

### **(3) Financial assets at fair value through other comprehensive income**

	<u>September 30, 2025</u>	<u>December 31, 2024</u>	<u>September 30, 2024</u>

A. Investment in equity instruments at fair value through other comprehensive income

The purpose that the Group invests in the equity instruments is for long-term strategies, but rather for trading purpose. Therefore, those equity instruments are designated as financial assets at fair value through other comprehensive income.

B. In March 2025, PlayNitride Inc., in which the Group has invested, conducted a cash capital increase. The Group subscribed in full according to its shareholding ratio, acquiring 34,826 shares and increasing its investment cost by NT\$ 6,547 thousand.

C. The amounts recognized in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	<u>Jan 1~Sep 30, 2025</u>	<u>Jan 1~Dec 31, 2024</u>	<u>Jan 1~Sep 30 2024</u>
Equity instruments at fair value through other comprehensive income			
Fair value change recognised in other comprehensive income	\$ 31,456	\$ 45,080	\$ 171,553

D. As of September 30, 2025 and December 31, 2024 and September 30, 2024, financial assets at fair value through other comprehensive income were not pledged as collateral.

E. Information relating to risk of financial assets at fair value through other comprehensive income is provided in Note 12(2).

## **(6) Non-current assets held for sale and disposal group**

A. Discontinued operations

For the market situation and business strategy adjustment, the Group has passed the disposal of total share capital of the 80% ownership subsidiary – Megtas Co., Ltd. and BH equipment, by the Board of Directors meeting in May 11, 2023. Due to the expected selling price was higher than the carrying amount of the related net assets, there was no impairment loss when the units classified as held for sale. Until the date of the accountant's report, the related assets and liabilities was classified as held for sale as the disposal has not completed. The Group considered Megtas Co., Ltd. as a single significant cash-generating unit, and classified the cash-generating unit as discontinued operation.

The profit or loss of the discontinued operation-subsidiary-MEGTAS CO., LTD. were as follows:

	<b>Jul 1~Sep 30, 2025</b>	<b>Jul 1~Sep 30, 2024</b>	<b>Jan 1~Sep 30, 2025</b>	<b>Jan 1~Sep 30, 2024</b>
Sales revenue	\$ 7,589	\$ 6,398	\$ 17,962	\$ 22,557
Operating costs	(5,803)	(5,576)	(17,374)	(21,821)

C. Regarding the Group's disposal of its entire 80% shareholding in its subsidiary MEGTAS CO., LTD. and the related BH equipment, the original sales agreement was signed with the buyer. However, the buyer has not yet fulfilled their commitment under the share and equipment sales contract and the letter of commitment to remit the acquisition funds to the designated custodian bank. As a result, the Group, through its attorney, has terminated the share and equipment sales contract and confiscated the performance bond of RMB 3 million (equivalent to NT\$ 13,203 thousand), which has been recorded under other income in March, 2024. On March 12, 2025 and March 7, 2024, respectively, the Group's Board of Directors resolved to continue the search for a new buyer. For overall operational planning, the Group submitted a proposal to the Board of Directors on October 8, 2025, to liquidate and process the dissolution registration of its subsidiary MEGTAS CO., LTD.

#### **(7) Property, plant and equipment**

- A. The cost, depreciation, and impairment of the property, plant and equipment of the Group were as follows:
- B. The Group, by resolution of the Board of Directors on May 8, 2024, approved the demolition and self-construction of a new factory at the original Hukou plant site. In July 2024, the book value of the original buildings and structures of the Hukou original plant was transferred to "Construction in Progress," amounting to NT\$78,139 thousand.
- C. The Group signed a construction and electromechanical engineering contract for the Hukou plant with a non-related party in August 2024. The total contract value is approximately NT\$1,728,178 thousand, of which NT\$520,779 thousand has been invested and recorded under unfinished projects.
- D. The Group signed electromechanical engineering and structural reinforcement works contracts with unrelated parties for the Hukou Plant II in August and September 2025. The total contract value is approximately NT\$347,300 thousand, of which NT\$67,630 thousand has been invested and recorded under unfinished projects.
- E. The Group signed electromechanical engineering contracts with unrelated parties for Zhubei Plant V in July and August 2025. The total contract value is approximately NT\$196,450 thousand, of which NT\$129,870 thousand has been invested and recorded under unfinished projects.
- F. The Group signed electromechanical engineering contracts with unrelated parties for Luzhu Plant II in July 2025. The total contract value is approximately NT\$116,000 thousand, of which NT\$46,400 thousand has been invested and recorded under unfinished projects.
- G. The Group signed land lease and self-construction of a new factory contracts with

unrelated parties in September 2025. The total contract value is approximately NT\$25,958 thousand, of which NT\$18,614 thousand has been invested and recorded under unfinished projects.

- H. In March 2025, the Group purchased land and buildings located in Xinxing Subsection, Zhongxing Section, Hukou Township from a non-related party for a contract price of NT\$700,000 thousand, and completed the title transfer registration in April 2025.
- I. Guarantee  
For details about the secured bank loan and facility as for September 30, 2025, December 31, 2024 and September 30, 2024, please see Note 8.
- J. For the capitalized interest, please see Note 6(20) B Financial cost.
- K. The Group signed the contract with the non-related party about the equipment construction between August and December in 2024. The total contract value is approximately NT\$879,553 thousand. The investment amount has now been fully contributed. Some parts have been inspected, and the remaining NT\$519,824 thousand has been recorded under prepaid equipment payment

## (8) Right-of-use assets and Lease liabilities

### A. Leasing arrangements—lessee

- (a) The Group leases various assets including land, buildings, Machine and equipment, and business vehicles. Rental contracts are typically made for periods within 1 to 20 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.
- (b) The carrying amount of right-of-use assets and the depreciation charge are as follows:

	September 30, 2025		Jan 1~Sep 30, 2025		September 30, 2024		Jan 1~Sep 30, 2024	
	Book value	Depreciation						
Land	\$ 119,874	\$ 8,524	\$ 16,713	\$ 6,895				
Buildings	220,880	52,110	56,906	33,139				
Machine and equipment	496	174	225	12,201				
Transportation (Business vehicles)	58,684	26,968	65,094	26,157				
Total	\$ 399,934	\$ 87,776	\$ 138,938	\$ 78,392				

- (c) In August 2025, the Group signed a land use rights agreement with the Natural Resources and Planning Bureau of Hefei City for a parcel of industrial land located in the Xinzhan District of Hefei City. The lease term is 50 years, and the full amount was paid upon signing.
- (d) For the nine -month periods ended September 30, 2025 and September 30, 2024, the additions to right-of-use assets were NT\$286,762 thousand and NT\$54,044 thousand respectively.
- (e) The information on income and expense accounts relating to lease contracts is as follows:

Items affecting profit or loss	Jul 1~Sep 30, 2025		Jul 1~Sep 30, 2024		Jan 1~Sep 30, 2025		Jan 1~Sep 30, 2024

Interest expense on lease liabilities	\$ 2,843	\$ 1,995	\$ 1,100	\$ 35	\$ 6,146	\$ 3,352	\$ 3,723	\$ 3,496
Expense on short-term lease contracts								
Gains(losses) on lease modification								

- (f) For the nine -month periods ended September 30, 2025 and September 30, 2024, the Group's total cash outflow for leases were NT\$168,538 thousand and NT\$81,036 thousand respectively.

## B. Lease liabilities

	<u>September 30, 2025</u>	<u>December 31, 2024</u>	<u>September 30, 2024</u>
Current	\$ 109,251	\$ 77,402	\$ 72,636
Noncurrent	220,550	70,637	68,905
Total	<u>\$ 329,801</u>	<u>\$ 148,039</u>	<u>\$ 141,541</u>

- (a) Please refer to Note 6(20) B. for the interest expense of lease liabilities.
- (b) The Group calculated the present value of lease liabilities by using the weighted average incremental borrowing interest rate range from 1.88%~5.34% as of nine-month periods September 30, 2025 and September 30, 2024 .

## C. Leasing arrangements – lessor

- (a) The Group leases various assets including part of machine and equipment, part of office buildings and plant. Rental contracts are typically made for periods within 6 months to 20 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. To protect the lessor's ownership rights on the leased assets, leased assets may not be used as security for borrowing purposes.
- (b) For the three-month and nine-month periods ended September 30, 2025 and 2024, the Group recognized rent income in the amount of NT\$5,101 thousand, NT\$5,017 thousand, NT\$15,378 thousand and NT\$26,259 thousand respectively, based on the operating lease agreement,

## (9) Investment properties

B. In April 2023, the Group purchase the land and building located in Zhongxing section, Hukou Township, Hsinchu County from an unrelated party for NT\$814,109 thousand including the necessary cost. The transfer of rights registration was completed in June 2023. The land and building were leased to unrelated party after the acquisition. The rental period was from June 21, 2023 to March 31, 2025. The land and building was recognized as investment properties and measured subsequently using cost model. The investment properties were terminated early in May 2024 and have been transferred to the property, plant, and equipment account.

C. For details about the investment properties pledged as collateral, please see Note 8.

#### **(10) Intangible assets**

The costs, amortization, and the impairment loss of intangible assets of the Group as of and for the ended of September 30, 2025 and 2024 were as follows:

Net book value	<b>\$ 217,711</b>	<b>\$ 234,330</b>	<b>\$ 226,223</b>

#### A. Recognized amortization and impairment

The amortization expenses for intangible assets and other deferred expenses (stated as other non-current assets) for nine-month periods September 30, 2025 and 2024, respectively, were stated as the following items in the comprehensive income statement:

	<b>Jul 1~Sep 30, 2025</b>	<b>Jul 1~Sep 30, 2024</b>	<b>Jan 1~Sep 30, 2025</b>	<b>Jan 1~Sep 30, 2024</b>
Operating cost	\$ 11,443	\$ 4,149	\$ 29,953	\$ 11,978
Operating expense	21,232	15,866	63,256	46,607
Total amortization expenses	<b>\$ 32,675</b>	<b>\$ 20,015</b>	<b>\$ 93,209</b>	<b>\$ 58,585</b>

#### B. R&D expenditure

For the three-month and nine-month periods September 30, 2025 and September 30, 2024, the R&D spending deriving from intangible assets internally developed amounted to NT\$328,345 thousand, NT\$286,369 thousand, NT\$914,634 and NT\$753,263 thousand respectively, recognized under the title of “Operating expenses – R&D expenses” in the comprehensive income statement.

#### C. Goodwill Impairment - Allstron

Upon the discussion of the management and report to the Board of Directors in 2016, the Group has, according to the forecasted cash flow of the subsidiary of the Group – Allstron Probing Solution, recognized the difference between the investment cost of the original investment day and the net equity value in the goodwill impairment loss with a value of NT\$45,533 thousand on December 2016.

#### D. Goodwill Impairment Evaluation - Celadon

(a) For the business development strategy, the Group has acquired 100% of the share capital of Celadon Systems Inc. (hereinafter referred to as the “Celadon”) for US\$10,200,000 (equivalent to NT\$283,471 thousand) in September, 2021 and obtained the control over Celadon.

The following table summarizes the consideration paid for Celadon and the fair values of the assets acquired and liabilities assumed at the acquisition date, as well as the acquisition date:

	<b>Acquisition Date</b>
	<b>September 9, 2021</b>
Purchase consideration	
Cash paid	\$ 283,471
 Fair value of the identifiable assets acquired and liabilities assumed	 \$ 85,047
 Goodwill	 \$ 198,424

The fair value of the assets and liabilities of Celadon (excluding identifiable intangible assets-patent and others) were according to the book value as of September 9, 2021 audited by public accountant. The fair value was the optimum expectation at acquisition date.

The Group has hired expert for the valuation of fair value of the identifiable intangible assets. The Group received the purchase price allocation report in January 2022 which indicated that the fair value of identifiable intangible assets (including patent, intangible asset from lease and client base) of Celadon.

The goodwill is attributable mainly from expanding the U.S market and the business scope and creating momentum for operational growth to the Group by merging Celadon. It will enhance the competitive advantage of the Group's products, provide completing solution services to the customers and expand the scale of the U.S market etc., as well as the synergies expected to be achieved from integrating business.

(b) The Group acquired Celadon Systems, Inc. which generated goodwill of NT\$198,424 thousand. Impairment assessment of goodwill is allocated to the Celadon's CGU. The recoverable amount of the CGU relating to the goodwill arising from acquisition of Celadon was determined based on value-in-use calculation. The calculation uses projected cash flows and owner-specific synergies based on financial budgets for the next five-year period.

Management determined budgeted gross margin based on past performance and their expectations of market development. The weighted average growth rates used are consistent with the projection included in industry reports. Cash flows and owner-specific synergies beyond the five-year period are extrapolated using the estimated growth rates. As of December 31, 2024, discount rate is 13.41%~16.29%.

Based on previous assessment, there is no impairment loss on goodwill as of September 30, 2025.

## (11) Other non-current assets

	September 30, 2025	December 31, 2024	September 30, 2024
Refundable deposit	\$ 134,838	\$ 126,362	\$ 122,309
Deferred charges	180,245	75,033	61,506
Other financial assets- non-current	12,709	11,854	10,627
Total	<u>\$ 327,792</u>	<u>\$ 213,249</u>	<u>\$ 194,442</u>

### A. About the refundable deposit as follows:

Some of the former employees of the group were being prosecuted for stealing the trade secret of the group to WinWay Technology Co., Ltd. They were prosecuted by the Hsinchu District Prosecutors Office and the criminal justices were currently judged by Taiwan Hsinchu District Court.

The group was asking for civil compensation from the defendants. For the case, the group applied for provisional seizure and deposited the guarantee amount of NT\$80,550 thousand to Intellectual Property and Commercial Court and Taiwan Hsinchu District Court. After the preliminary investigation, there were still a large number of exhibits waiting for identification. The civil justices were currently judged by Taiwan High Court and the Supreme Court.

The above cases have no significant impact on the group's financial condition and operating result. On the position of protecting fair competition and intellectual property rights, the group had engaged the attorney to prosecute the civil and criminal legal liability.

As of September 30, 2025, December 31, 2024 and September 30, 2024, the Group has deposited the guarantee of processing fee are NT\$80,550 thousand.

### B. The costs of deferred charges, amortization, and the impairment loss of the Group for the nine-month periods ended September 30, 2025 and 2024 were as follows:

	Deferred Charges		Deferred Charges
January 1, 2025	\$ 75,033	January 1, 2024	\$ 60,845
Addition	84,380	Addition	23,045
Reclassification	—	Reclassification	—
Amortization expenses	(47,610)	Amortization expenses	(22,560)
Transfer	68,709	Transfer	—
Impairment	—	Impairment	—

Capital Reserve–Warrants (Equity Component of Convertible Bonds)	\$ (28,990)	\$ —	\$ —
	\$ 269,949	\$ —	\$ —

A. The Company, by resolution of the Board of Directors on November 12, 2024, approved the issuance of the fifth domestic unsecured convertible bonds. The proceeds from the issuance will be used to repay bank loans and strengthen working capital. The issuance has been filed through effective registration and approved by the Financial Supervisory Commission in letter No.1130366455, dated December 23, 2024. The terms of the issuance are as follows:

(a) Total issued amount:

The par value of each convertible bond is NT\$100,000, with a total par value of NT\$3.5 billion. The bonds were issued at 100.5% of the par value, for a total of 35,000 bonds issued.

(b) Issuance Period:

Five years (from January 8, 2025 to January 8, 2030).

(c) Coupon rate: 0%

(d) Duration: The day following expiration of three month after the date of issuance (April 9, 2025) until the expiry date (January 8, 2030).

(e) Conversion price and adjustment thereof:

Ⓐ The conversion price at the time of issuance shall be NT\$930 per share.

Ⓑ In the case of changes in shares of common stock (e.g. capital increase in cash, recapitalization of earnings and recapitalization from capital surplus, et al.); the conversion price shall be adjusted relatively.

Ⓒ Regarding the Company's 5th domestic unsecured convertible bonds, according to the matters reported at the Board of Directors meeting on August 13, 2025, and in accordance with Article 11 of the issuance and conversion regulations of the Company's 5th domestic unsecured convertible bonds, the conversion price must be adjusted on the ex-dividend date when cash dividends on common shares are distributed. After calculation, effective from July 18, 2025, the conversion price has been adjusted to NT\$913.4 per share.

(f) Bondholders' put option:

The bondholders may exercise the put option of the convertible bonds earlier on the record date for exercise of put option, namely, January 8, 2028 upon

expiration of three years and four years after issuance of the bonds. The bondholders may ask the Company to redeem the convertible bonds at 100% of the book value thereof in cash within 40 days prior to the record date for exercise of put option.

(g) The Company's right of redemption:

- Ⓐ From the date following expiration of three month upon offering of the bonds (April 9, 2025) until 40 days prior to expiration of the duration (November 29, 2029), if the closing price of the Company's common shares at Taipei Exchange exceeds the current conversion price by more than 30% for 30 consecutive business days, the Company may exercise the call option to repurchase the bonds from the bondholders at the book value thereof in cash.
- Ⓑ From the date following expiration of three month upon offering of the bonds (April 9, 2025) until 40 days prior to expiration of the duration (November 29, 2029), if the balance of the outstanding bonds is less than 10% of the initial total issue price, the Company may exercise the call option to repurchase the bonds from the bondholders at the book value thereof in cash.

(h) Date and method of repayment of principal:

Except those converted to the Company's common stock by the bondholders according to the Regulations, or those redeemed upon exercise of the put option, or those redeemed by the Company earlier pursuant to the Regulations, or those repurchased by the Company from securities firms for cancellation, the others would be repaid in cash in full amount upon maturity.

B. The information about convertible corporate bonds in the financial statements is stated as following:

	<b>January 8, 2025 (Issuing date)</b>
Total issuing amount of convertible corporate bond	\$ 3,517,500
Cost of convertible corporate bond	(5,694)
Elements of equity at the time of issuance - conversion option	(338,949)
Embedded financial derivatives at the time of issuance	(8,400)
Corporate bond payable, net on the issuing date	<u>\$ 3,164,457</u>

Regarding the issuance of convertible bonds, the equity conversion options amounting to NT\$338,349 thousand were separated from the liability component and were recognised in 'capital surplus—share options' in accordance with IAS 32. The call options and put options embedded in bonds payable were separated from their host contracts and were recognised in 'financial assets or liabilities at fair value through profit or loss' in net amount in accordance with IFRS 9 because the economic characteristics and risks of

the embedded derivatives were not closely related to those of the host contracts.

The effective interest rate of the 5th unsecured convertible bonds after host contracts separation is 2.0173%.

C. (a) Upon initial recognition, the Group recorded an amount of NT\$ 8,400 thousand under "financial liabilities designated at fair value through profit or loss," representing the Company's issued convertible bonds. As the convertible bonds are hybrid instruments, the Company designated the entire liability component of the convertible bonds as financial liabilities at fair value through profit or loss at initial recognition.

(b) From January to September, 2025, the Group has recognized a fair value change amounting to NT\$44,799 thousand, which has been recorded under "Gains (Losses) on Financial Assets and Liabilities at Fair Value Through Profit or Loss."

D. The Company recognized interest expense of convertible bonds were NT\$ 46,983 thousand from January to September, 2025.

E. For the period from January 1 to September 30, 2025, the aggregate principal amount of the Fifth Domestic Unsecured Convertible Bonds for which conversion was requested amounted to NT\$712,500 thousand. A total of 780 thousand shares were issued upon conversion, resulting in additional paid-in capital—share premium from conversion of convertible bonds of NT\$707,548 thousand.

(Note) The subsidiary of the Group – Celadon Systems Inc., obtained a long-term loan and the loan is secured by company assets.

- A. For the information about exposure of the Group's interest rate and liquidity risks, please refer to Note 12(2).
- B. Pledged assets for bank loan

For bank loans secured by the Group's assets, please refer to Note 8.

## **(17) Pension Benefits**

- A. Defined benefit plan
  - (a) The Company and its domestic subsidiaries have instituted regulations for the defined pension plan under the “Labor Standards Law” applicable to the years of services of employees before July 1, 2005, which is the day that the new “Labor Pension Act” came into full force, and the following years of services of employees who choose to continue applying the Labor Standard Law upon enforcement of the Labor Pension Act. Employees who meet the retirement requirements will be paid the pension based on their years of service and average salary or wage of the last nine months prior to retirement. Two units are accrued for each year of service for the first 15 years and one unit is accrued for each additional year thereafter, up to a maximum of 45 units. The Company and its domestic subsidiaries contribute 2% of the total salaries of the employees to the special pension fund account with Bank of Taiwan supervised by the Employee Pension Fund Reserve Supervisory Committee.

Until the end of September 30, 2025, the balance of the pension funds contributed to the special pension fund account at Bank of Taiwan was NT\$132,323 thousand.

- (b) For the aforementioned pension plan, the Group recognized pension costs of all NT\$6,384 thousand and NT\$6,423 thousand for the nine-month periods ended September 30, 2025 and 2024, respectively.
- (c) Expected contributions to the defined benefit pension plans of the Group for the next annual reporting period as at December 31, 2024 is NT\$3,434 thousand.

#### B. Defined contribution plans

- (a) As of July 1, 2005, the Company and domestic subsidiaries instituted the defined contribution retirement plan according to the "Labor Pension Act", applicable to the native employees. The Group shall contribute the amount equivalent to 6% of the monthly salary of respective native employees to the individual pension accounts of the employees at Labor Insurance Bureau, with respect to the labor pension system under the "Labor Pension Act" chosen by employees. Retired employees may claim for pension disbursement in accordance with the status of their individual accounts and the cumulative contribution in the account through monthly payment or in lump sum.
- (b) Foreign subsidiaries shall contribute specific ratio of the local employees' total salary, on a monthly basis, as the pension or fund of endowment insurance according to the local government regulations. The pension of each employee shall be arranged and managed by government. Except that the subsidiaries shall be obligated to contribute the fund on a monthly basis, the subsidiaries shall bear no other obligations.
- (c) The pension expenses recognized under the Group's defined contributed pension regulations were NT\$83,544 thousand and NT\$68,966 thousand for the nine-month periods ended September 30, 2025 and 2024.

### **(18) Equity**

A. The Company's outstanding common stock at beginning and ending is reconciled as follows:

	Unit: share		
	Jan.1~Sep 30, 2025	Jan.1~Dec. 31, 2024	Jan.1~Sep 30, 2024
Balance, beginning	94,231,106	94,231,106	94,231,106
Convertible Bonds Transferred To Common Stock	780,030	—	—
Cancellation of treasury shares	(80,000)	—	—
Balance, ending	<u>94,931,136</u>	<u>94,231,106</u>	<u>94,231,106</u>

#### B. Capital surplus

- (a) Pursuant to the R.O.C. Company Law amended in January 2012, capital surplus shall be first used to offset a deficit and then new shares or cash may

be allocated based on realized capital surplus subject to shareholdings. Realized capital surplus referred to in the preceding paragraph included the surplus generated from donations and the excess of the issuance price over the par value of capital stock. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, the capital surplus may be transferred to common stock up to an annual limit of 10% of the paid-in capital.

(b) The balance of the Company's capital surplus:

	September 30, 2025	December 31, 2024	September 30, 2024
<u>May be used to offset a deficit, distributed as cash dividends, or transferred to share capital (Note1)</u>			
Common stock premium	\$ 209,985	\$ 210,163	\$ 210,163
Convertible corporate bond conversion premium	2,136,443	1,428,895	1,428,895
Treasury Stock Transactions	—	58,623	58,623
<u>May be used to offset a deficit only (Note2)</u>			
Donation from shareholders	1	1	1
Invalidated employee shareholding pledging	27,005	27,005	27,005
<u>Such capital surplus may not be used for any purpose</u>			
Others-issuance of new shares due to acquisition of shares of another company	19,858	19,858	19,858
Stock option (Elements of equity of convertible corporate bonds)	269,949	—	—
<b>Total</b>	<b>\$ 2,663,241</b>	<b>\$ 1,744,545</b>	<b>\$ 1,744,545</b>

(Note1) Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital.

(Note2) Such type of capital reserve pertains to bequeathing to the accepting shareholders without cash inflow or reclassification of invalidated employee shareholding pledging.

- Ⓐ The company issued the first, second, third and fourth Domestic unsecured convertible corporate bonds; The company recognized NT\$1,428,895 thousand as paid-in capital in excess of par-common stock and treasury stock transaction NT\$8,864 thousand.
- Ⓑ The 3rd domestic unsecured conversion of corporate bonds pay off convertible corporate bonds at expiry, in addition to bondholders with converting right not requesting for the conversion to be invalidated, the initially classified “capital reserve – shareholding pledging” balance at NT\$27,005 thousand is reclassified as “capital reserve – invalidated shareholding pledging” item.
- Ⓒ The group issued last time Domestic unsecured convertible corporate bonds; The company recognized NT\$49,759 thousand as paid-in capital in excess of par-common stock.

- ④ The Company received the shareholders' waiver of equity and 8 shares were transferred to the Company in June 2013. According to laws, the equity acquired by the Company upon receipt of the shareholders' waiver of the same shall be held as treasury stock and stated at the fair value of the stock on the same day, credited into capital surplus-donation from shareholders, NT\$1 thousand.
- ⑤ The Company issued new shares and swapped the equity with the subsidiary, Chain-Logic International Corp. On June 15, 2002. The Company's shareholding is 100%. The difference between the investment cost and net worth of the acquired equity was NT\$19,858 thousand on the date of investment, stated as capital surplus-others.

#### C. Retained earnings

- (a) According to the company laws amended in May 2015, employee remuneration and remuneration to directors/supervisors shall not be allocated from earnings any longer. The Company has had the amended Articles of Incorporation resolved and approved by the board of directors on June 16, 2016. Therefore, if the Company has a profit at the year's final accounting, it shall first pay profit-seeking enterprise income tax and make up any losses from past years, and then make contribution of 10% of the balance to the statutory reserve, unless the statutory reserve reaches the amount of the Company paid-in capital, and also make provision/reversal of special reserves pursuant to laws. The residual balance shall be added to undistributed earnings carried from previous years. The Board shall draft a motion for allocation of the residual balance plus the undistributed earnings, and submit the same to a shareholders' meeting to resolve whether shareholder bonus shall be allocated or the earnings shall be retained.
- (b) The shareholders' meeting resolved to amend the Company Act of Incorporation as following on June 17, 2011: For the time being, the Company's industrial development is still growing, the dividend policy requires that the board of directors shall draft the motion for allocation of earnings each year and submit the same to a shareholders' meeting for ratification, subject to the Company's present and future investment environments, funding demand, status of competition domestically/overseas and capital budget and by taking care of shareholders' interest, balanced stock dividend and the Company's long-term financial planning into consideration. The earnings will be allocated in the form of cash dividend or stock dividend, subject to the funding demand and level of dilution of EPS. The cash dividend to be allocated, if any, shall be no less than 10% of the total stock dividend.

(c) Legal reserve

According to the Company Law amended in January 2012, the Company shall contribute 10% from the income after tax as the legal reserve until it is equivalent to the gross capital. When the Company suffers no loss, new shares or cash may be allocated from the legal reserve upon resolution of the shareholders' meeting, provided that the new shares or cash allocated shall be no more than 25% of the paid-in capital.

(d) Special reserve

Following a company's adoption of the TIFRS for the preparation of its financial reports, when distributing distributable earnings, it shall set aside to special reserve based on the difference between the amount already set aside and the total debit balance of other shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

(e) The appropriations of 2024 earnings had been approved by the shareholders during their meeting on June 11, 2025, and the appropriations of 2023 earnings had been approved by the shareholders during their meeting on June 13, 2024. Details are summarised below:

	2024		2023	
	Amount	Dividends per share (in dollars)	Amount	Dividends per share (in dollars)
Legal reserve	\$ 231,371		\$ 131,788	
Special reserve	(9,089)		(70,764)	
Cash dividends	1,507,698	\$16	706,733	7.50

(f) The information about allocation of retained earning approved by the Board of Directors and resolved by a shareholders' meeting may be viewed at the "MOPS".

D. Treasury stock :

(a) Changes in the treasury stock are set forth below:

	Year ended September 30, 2025			
	Beginning	Additions	Disposal	Ending shares
Reason for reacquisition	shares			
Maintain shareholders' equity	—	80,000	80,000	—
Year ended September 30, 2024				
Reason for reacquisition	Beginning	Additions	Disposal	Ending shares
Maintain shareholders' equity	—	—	—	—

- (b) According to the Securities and Exchange Act, the number of shares repurchased by the Company shall not exceed 10% of the total issued shares, and the total repurchase amount shall not exceed the sum of retained earnings plus share premium and realized capital surplus. In June 2025, the Company repurchased 80,000 treasury shares, amounting to NT\$62,525 thousand.
- (c) In accordance with the Securities and Exchange Act, treasury shares held by the Company cannot be pledged and shall not enjoy shareholder rights before transfer.
- (d) The Group has passed the capital reduction thru canceling 80,000 shares by the Board of Directors meeting in August 13, 2025. The record date of the capital reduction is August 13, 2025, and the change in registration has been completed. The capital reduction resulted in a debit of NT\$178 thousand to capital surplus—common stock premium, a debit of NT\$58,623 thousand to capital surplus—treasury share transactions, and a debit of NT\$2,944 thousand to retained earnings.

#### E. Share-based payment — employee compensation plan

As of September 30, 2025, information on outstanding ESO is shown below: None.

### **(19) Operating income**

(Note)The other personnel expenses including food stipend, overtime pay and employee benefits.

- A. According to the Company's existing articles of incorporation, the Company shall allocate remuneration to employees and remuneration to directors/supervisors when allocating the earnings.
- B. (a)The Company has approved the motion for amendments to the Articles of Incorporation on June 11, 2025:

If the Company retains income before tax after the account settlement, it shall allocate 0.1%~15% thereof as the remuneration to employees, and not be higher than 3% thereof as the remuneration to directors. Of the amount allocated to employees' remuneration, no less than 50% shall be taken to allocate for distribution to basic-level employees. However, profits must first be taken to offset against cumulative losses, if any. The remainder, if any, shall be allocated as the remuneration to employees and directors on a pro rata basis as referred to in the preceding paragraph.

(b) The Company has approved the motion for amendments to the Articles of Incorporation on June 15, 2020:

If the Company retains income before tax after the account settlement, it shall allocate 0.1%~15% thereof as the remuneration to employees, and not be higher than 3% thereof as the remuneration to directors. However, profits must first be taken to offset against cumulative losses, if any. The remainder, if any, shall be allocated as the remuneration to employees and directors on a pro rata basis as referred to in the preceding paragraph.

The allocation of remuneration to employees and directors shall be resolved and approved by a majority of the directors present at a directors' meeting attended by more than two-thirds of the whole directors, and reported to a shareholders' meeting.

Employees' remuneration may be paid in the form of stock or in cash, and can be paid to employees of affiliated companies that satisfy certain criteria.

- C. The Company estimated the remuneration to employees was NT\$93,423 thousand, NT\$68,103 thousand, NT\$238,006 thousand and NT\$170,611 thousand, respectively for the three-month and nine-month periods ended September 30, 2025 and 2024, and the remuneration to directors was NT\$23,356 thousand, NT\$17,026 thousand, NT\$59,502 thousand and NT\$42,653 thousand, respectively for the three-month and nine-month periods ended September 30, 2025 and 2024. Said values were stated into salary expenses. The values were estimated based on the earnings gained until the current period.
- D. The remuneration to employees and directors 2024 resolved to be allocated at the shareholders' meeting on June 11, 2025 by the Board of Directors meeting were NT\$249,429 thousand and NT\$62,357 thousand, respectively, identical with that recognized in the financial statement 2024, and the remuneration to employees will be paid in cash. The remuneration will be paid after the amended Articles of Incorporation is resolved at the general shareholders' meeting 2025.
- E. The remuneration to employees and directors 2023 resolved to be allocated at the shareholders' meeting on June 13, 2024 by the Board of Directors meeting were NT\$138,653 thousand and NT\$34,663 thousand, respectively, identical with that recognized in the financial statement 2023, and the remuneration to employees will be paid in cash. The remuneration will be paid after the amended Articles of Incorporation is resolved at the general shareholders' meeting 2024.
- F. The information about remuneration to employees and remuneration to directors was approved by the Board of Directors and resolved by a shareholders' meeting may be viewed at the "MOPS".

## (25) Supplemental cash flow information

A. Investing activities paid in cash in part only:

	<u>Jan 1~Sep 30, 2025</u>	<u>Jan 1~Sep 30, 2024</u>
Purchase of fixed assets	\$ 2,573,522	\$ 525,690
Add: opening balance of payable on equipment	647,863	142,339
Less: ending balance of payable on equipment	( 217,001)	( 67,130)
Cash paid during the period	<u>\$ 3,004,384</u>	<u>\$ 600,899</u>

B. Financing activities with no cash flow effects :

	<u>Jan 1~Sep 30, 2025</u>	<u>Jan 1~Sep 30, 2024</u>
Conversion of convertible bonds into share capital	<u>\$ 7,800</u>	<u>\$ —</u>

## 7. Transactions with related parties

### (1) Parent company and ultimate controller

The Company is the ultimate controller of the Group.

### (2) The names and relationship of related parties: None.

### (3) Important transactions with related parties

The balance and transaction between the Company and its subsidiaries have been derecognized from the consolidated financial statements and were not disclosed accordingly. There was no transaction between the Group and other related parties for the nine months ended September 30, 2024 and 2023.

### (4) Information about remuneration to the management

Information about remuneration to the Group's management is stated as follows:

	<u>Jul 1~Sep 30, 2025</u>	<u>Jul 1~Sep 30, 2024</u>	<u>Jan 1~Sep 30, 2025</u>	<u>Jan 1~Sep 30, 2024</u>
Short-term employee benefits	\$ 11,879	\$ 8,064	\$ 22,598	\$ 16,601
Post-employment benefits	—	—	—	—
Other long-term benefits	—	—	—	—
Termination benefits	—	—	—	—
Share-based payments	—	—	—	—
Total	<u>\$ 11,879</u>	<u>\$ 8,064</u>	<u>\$ 22,598</u>	<u>\$ 16,601</u>

Said remuneration to the management is decided by the Remuneration Committee subject to personal performance and market trend. For the relevant information, please see the annual report of the general shareholders' meeting.

## 8. Pledged assets

The following assets have been provided to the Group to pledge for bank loans, import business tax, sale commitment, notes payable, payment commitment and repatriated offshore funds. The book value thereof is stated as follows:

	September 30, 2025	December 31, 2024	September 30, 2024
Land (Including investment properties)	\$ 1,505,103	\$ 1,505,103	\$ 1,505,103
Buildings (Including investment properties)	1,383,203	1,429,019	1,439,811
Pledged bank deposit (stated as other current assets)	—	1,457	1,727
Other non-current financial assets (stated as other non-current assets)	12,709	11,854	10,627
Total	<u>\$ 2,901,015</u>	<u>\$ 2,947,433</u>	<u>\$ 2,957,268</u>

## 9. Significant contingent liability and unrecognized contractual commitment

(1) Contingency: None.

(2) Commitment:

- A. Balance of unused letter of credit issued by the Group, guarantee money paid and service charges: None.
- B. The outstanding capital expenditure amount under the purchase orders signed is stated as following:

	September 30, 2025	December 31, 2024	September 30, 2024
Purchases of property, plant and equipment	<u>\$ 1,791,408</u>	<u>\$ 689,730</u>	<u>\$ 1,042,315</u>

C. The Group signed a technology transfer agreement with a Non-related party, and the main contents are as follow:

Duration of agreement	Transferred Technology Product	Terms of Payment	Important Notes
5 years (4 <sup>th</sup> Quarter 2023 to 3 <sup>rd</sup> Quarter 2028)	The Transfer of Technology of Thermal Chuck Systems	The Total Agreement Price is €8,000,000, with the amount of €5,600,000 (equivalent to NT\$ 192,200 thousand) was paid in September 30 2025. The remaining amount should be paid is €2,400,000 (€1,200,000 should be paid in the next year and then, in the following 2-5 years should pay €1,200,000).	<ol style="list-style-type: none"> <li>1. If the Group terminates the Agreement before validation of Block 1, the Group shall be responsible for 100% of the Total Agreement Price.</li> <li>2. If the Group terminates the Agreement after the validation of Block 1 but before the validation of Block 2, the Group will pay 100% of the Total Agreement Price plus 2 years of royalties.</li> <li>3. If the Group terminates the Agreement after the validation of Block 2, the Group will pay 3 years of royalties.</li> </ol>

D. The Group, in order to apply for the Taiwan Industry Innovation Platform Program, signed a system development project contract with the Taiwan Small & Medium Enterprise Counseling Foundation. The project period is from August 1, 2024 to July 31, 2026, with a total subsidy amount of NT\$34,000 thousand. When requesting the first subsidy disbursement for the first-year, the Group issued a bank-guaranteed promissory note of NT\$34,000 thousand. If the Group breaches

the contract, the Foundation reserves the right to suspend subsequent subsidy disbursements and reclaim any distributed subsidy according to the contract.

**10. Significant disaster loss: None.**

**11. Significant subsequent events: None.**

**12. Others**

**(1) Capital management**

The Group's capital management objective is intended to protect the Group's continued operation and ensure maintenance of well-founded credit ratings and optimal capital structure to reduce capital cost, in order to support the enterprise's operation and maximization of shareholders' return. The Group manages and adjusts the capital structure subject to the economic condition. The Group might adjust the stock dividend to be paid, refund of capital, issuance of new shares or realization of assets to reduce liabilities, in order to maintain and adjust the capital structure.

The Group controls its capital structure based on the debt/equity ratio. Said ratio is net liabilities dividing by the net worth. The Group maintained the same strategy in 2025 as that in 2024, dedicated to maintaining the debt/equity ratio less than 50%~100%. The Group's debt ratios on September 30, 2025, December 31, 2024 and September 30, 2024 are stated as follows:

	<b>September 30, 2025</b>	<b>December 31, 2024</b>	<b>September 30, 2024</b>
Total liabilities	\$ 9,852,190	\$ 7,171,563	\$ 5,580,664
Total net worth	10,904,666	9,306,950	8,709,775
Debt/equity ratio	90%	77%	64%

**(2) Financial instruments by category**

A. The financial instruments of the group are stated as follows:

- (a) Financial assets: Including financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, financial assets at amortized cost, cash and cash equivalents, notes receivable, accounts receivable, other receivables, guarantee deposits paid and other financial assets.
- (b) Financial liabilities: Including financial liabilities at fair value through profit or loss, short-term loans, notes payable, accounts payable, other payables, lease liabilities, corporate bonds payable (including current portion), long-term loans (including current portion), guarantee deposits received and other financial liabilities.

B. Risk management policies

- (a) The Group's financial risk management aims to manage the market risk, credit risk and liquidity risk related to operating activities, and to identify measure and administer said risks based on policies and risk preference.

(b) The Group has established adequate policies, procedures and internal controls pursuant to the related regulations, in order to manage said financial risk. The important financial activities shall be audited and approved by the board of directors according to the related regulations and internal control system. In the duration of financial management activities, the Group shall strictly comply with the requirements related to financial risk management defined by the Company.

#### C. Significant financial risks and degrees of financial risks

##### (a) Market risk

The Group's market risk arises from market price fluctuation resulting in fluctuation of the fair value or cash flow of financial instruments. The market risk primarily includes foreign exchange risk, interest rate risk and other pricing risks.

Practically, few single risk variances would change independently. Additionally, changes of various risk variances are generally correlative to each other. Notwithstanding, the sensitivity analysis of the following risks does not take the interaction of related risk variances into consideration.

###### Ⓐ Foreign exchange risk

The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currencies, primarily with respect to the USD and RMB. Exchange rate risk arises from future commercial transactions and recognized assets.

The Group's receivable accounts denominated in foreign currency are identical with payable accounts denominated in foreign currency in some currencies and, therefore, the equivalent positions would produce the hedging effect naturally. Considering that said natural hedging did not meet the hedging accounting policy, the Group did not adopt the hedging accounting policy. Further, the net investment in foreign operations was identified as strategic investment. Therefore, the Group did not adopt any hedging policy against it.

The sensitivity analysis on the Group's foreign exchange risk was primarily intended to be conducted against the titles in foreign currencies at the end of the financial reporting and the effect produced by the revaluation/devaluation of related foreign currencies on the Group's income and equity. The Group's foreign exchange risk arises primarily from fluctuation in the foreign exchange rate of USD, Japanese Yen and Euro and RMB.

The Group's business lines involved some non-functional currencies (the functional currency of the Company and some of its subsidiaries was NTD, and that of some subsidiaries is USD, RMB or KRW). Therefore, the Company would be subject to the effect produced by fluctuation in foreign exchange rate. The information about assets denominated in foreign currency exposed to significant effect produced by fluctuation in foreign exchange rate is stated as follows:

<b>September 30, 2025</b>				
	<b>Currency unit</b>	<b>Amount in foreign currency (thousand dollars)</b>	<b>Applicable foreign exchange rate, ending (Dollar)</b>	<b>Book value (NTD) (thousand dollars)</b>
<b>Financial assets</b>	NTD/USD	\$ 73,992	30.44494	\$ 2,252,672

	NTD/JPY	\$ 79,235	0.2246	\$ 17,796
	NTD/EUR	\$ 799	35.542	\$ 28,389
	NTD/RMB	\$ 107	4.549	\$ 486

In consideration of the Group's multiple functional currency types, the information about exchange gain or loss for currency is disclosed by summarization. The foreign currency exchange gain (loss) (including the realized and unrealized) was NT\$(184,765) thousand and NT\$95,623 thousand until September 30, 2025 and 2024.

② Cash flow and fair value interest rate risk

The interest rate risk arises when the fluctuation of market interest rate results in fluctuation in fair value of financial instruments or in future cash flow. The Group's interest rate risk arises primarily from the loan with floating interest rate.

The Group maintained adequate portfolio with fixed and floating interest rates to manage the interest rate risk.

③ Equity price risk

a. Equity securities held by the Group are susceptible to price risk arising from uncertainties about future values of the investment securities. The Group manages the equity price risk through placing limits on individual

and total equity instruments. Reports on equity portfolio are submitted to the Group's senior management on a regular basis. The Board of Directors shall review all equity investment decisions and approve where appropriate.

b. As of September 30, 2025, December 31, 2024 and September 30, 2024, the sensitivity analyses for the changes in the securities price at the reporting date were performed using the same basis for the profit and loss with all other variable factors remaining constant as illustrated below:

Stock in domestic listed company through private placement

Prices of securities at the reporting date	September 30,2025		December 31, 2024		September 30,2024	
	Sensitivity of Profit or Loss	Sensitivity of other comprehensive income	Sensitivity of Profit or Loss	Sensitivity of other comprehensive income	Sensitivity of Profit or Loss	Sensitivity of other comprehensive income
Increasing 5%	\$ —	\$ 14,000	\$ —	\$ 14,420	\$ —	\$ 20,370
Decreasing 5%	\$ —	\$ (13,860)	\$ —	\$ (14,210)	\$ —	\$ (20,440)

Domestic innovation board common stock

Prices of securities at the reporting date	September 30,2025		December 31, 2024		September 30,2024	
	Sensitivity of Profit or Loss	Sensitivity of other comprehensive income	Sensitivity of Profit or Loss	Sensitivity of other comprehensive income	Sensitivity of Profit or Loss	Sensitivity of other comprehensive income
Increasing 5%	\$ —	\$ 3,908	\$ —	\$ 1,602	\$ —	\$ 1,872
Decreasing 5%	\$ —	\$ (3,908)	\$ —	\$ (1,612)	\$ —	\$ (1,792)

④ Other risks over market value

In addition to meeting expected consumption and sale needs, the Group did not sign any product contract which did not apply net settlement.

⑤ Under the circumstance that all of the other factors remained unchanged, the sensitivity analysis on the changes in related risks before tax on September 30, 2025, December 31, 2024 and September 30, 2024, are stated as following:

September 30, 2025		
Primary risk	Range of change	Sensitivity of Profit or Loss
Foreign exchange risk risk	Fluctuation in foreign exchange rate +/- 3%	+/-110,615 Thousand
Interest rate risk	Loan with floating interest rate +/- 0.25%	+/-6,130 Thousand

December 31, 2024		
Primary risk	Range of change	Sensitivity of Profit or Loss
Foreign exchange risk risk	Fluctuation in foreign exchange rate +/- 3%	+/89,033 thousand
Interest rate risk	Loan with floating interest rate +/- 0.25%	+/- 5,406 thousand

September 30, 2024		
Primary risk	Range of change	Sensitivity of Profit or Loss
Foreign exchange risk risk	Fluctuation in foreign exchange rate +/- 3%	+/- 83,544 thousand
Interest rate risk	Loan with floating interest rate +/- 0.25%	+/- 5,517 thousand

(b) Credit risk

- Ⓐ Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortized cost, at fair value through profit or loss and at fair value through other comprehensive income.
- Ⓑ The group set up the management of credit risk by Group perspective. According to the loan policy expressly defined internally in the Group, each business dept. Within the Group shall conduct the management and credit risk analysis on each new customer before setting payment and proposing the delivery terms and conditions. The internal risk control evaluates customers' credit quality by taking into consideration the customers' financial position, and past experience and other factors. The individual risk limit is set by the management according to the internal or external ratings. The management will also control the periodic drawdown of credit limits. The main credit risk results from derivative financial instruments and the balance deposited in banks and financial organizations, and customers' credit risk, including the unearned accounts receivable and undertaken transactions. The Group also applied some credit enhancement instruments (e.g. advance sale receipts) in a timely manner to reduce customers' credit risk.
- Ⓒ For the nine-month periods ended September 30, 2025 and 2024, no circumstances resulting in excess of the credit limit have taken place. Meanwhile, the management expects no material loss resulting from trading counterpart's failure to perform contract.
- Ⓓ The Group's Finance Dept. Manages the credit risk over the deposits in banks and other financial instruments according to the Group's policy. The Group's trading counterparts were decided by the internal control procedure, who were trustworthy banks and corporations which were not expected to breach the contracts. Therefore, there should be no significant credit risk.

⑤ Guarantee

According to the Group's policy, the Group may only make financial guarantee for the subsidiaries wholly owned by the Group. Before September 30, 2025, December 31, 2024 and September 30, 2024, the Group has never made any endorsements/guarantees.

⑥ The Group adopts following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:

If the contract payments were past due based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.

⑦ The Group in line with credit risk management procedure, when the counterparty of transaction has financial difficulties, business accidents, restrictions on the acceptance of orders due to legal restrictions, refunds of company bills and any factors (such as fires, earthquakes and natural disasters). A default is considered to have occurred in the event that the possibility of recovering the receivable is very low, the default has occurred.

⑧ The Group classifies customer's notes receivable, accounts receivable, contract assets and rents receivable in accordance with geographic area, product types, credit rating of customer, collaterals, credit risk on trade and customer types. The Group applies the modified approach using provision matrix to estimate expected credit loss under the provision matrix basis.

⑨ The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.

⑩ The Group used the foreseeable of Taiwan Institute of Economic Research boom observation report to adjust historical and timely information to assess the loss allowance of notes receivable and accounts receivable. The group use provision matrix to estimate expected credit loss under the provision matrix basis. The provision matrix basis based on historical default rates observed during the lifetime of accounts receivable to adjust. On each reporting day, the Group updated the observed historical default rates and analyzed changes. On September 30, 2025, December 31, 2024 and September 30 2024, the group expected credit loss rate during the lifetime is stated as follow:

	<b>Notes Receivable</b>	<b>Accounts Receivable</b>					
		dishonoured check	Without past due	1~90 days	91 to 180 days	181 to 360 days	1 to 2 years
Expected loss rate		100%	0%	7%	15%	25%	50%
							100%

⑤ The Group grants the loan period varying based on the evaluation on each trading customer, generally O/A 60 days or 210 days. For the information about the changes of loss allowance provided for the Group's impairment on receivable accounts and account age analysis on loans, please see Note 6(4).

(c) Liquidity risk

Ⓐ The liquidity risk arises when the Group fails to deliver cash or other financial assets to repay financial liabilities and to perform the related obligation. The Group managed the liquidity in a manner ensuring that the Group has sufficient working fund to repay matured liabilities under the general and critical circumstances, so as to avoid unacceptable loss or impairment on the Group's goodwill.

Ⓑ The Group's will call the management meeting periodically to assist Financial Accounting Dept. Control the need for cash flow and the optimal investment return in cash. Generally, the Group will ensure that it has sufficient cash to meet the need for expected operating expenditure for 90 days, including performance of financial obligation, but excluding the potential effect which it is impossible to expect reasonably under extreme circumstances, e.g. natural calamity. The unused limit of the Group's loan totaled NT\$4,833,537 thousand on September 30, 2025.

Ⓒ The following table refers to the non-derivative financial liabilities and grouped subject to the relevant expiry dates. The non-derivative financial liabilities are analyzed based on the residual period from the date of balance sheet until the expiry date. Nevertheless, the Group did not hold derivative financial liabilities.

Non-derivative financial liabilities	September 30, 2025			
	Within 1 year	1~2 years	More than 2 years	Total
Short-term loan	\$ 1,100,000	\$ —	\$ —	\$ 1,100,000

Lease liabilities (note)	72,636	44,695	24,210	141,541
Long-term loan (including the current portion)	192,510	204,139	1,150,263	1,546,912
Total	<u>\$ 2,763,166</u>	<u>\$ 248,834</u>	<u>\$ 1,174,473</u>	<u>\$ 4,186,473</u>

<Note>

Lease payments are low-value asset leases or short-term leases that are exempt from recognition of lease liabilities. If lease payment are significant, it should be disclose the maturity analysis of the contractual cash flow amounts.

### (3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

- Ⓐ Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability takes place with sufficient frequency and volume to provide pricing information on an ongoing basis. Starting from January 1, 2025, the fair value of the Group's investments in domestic Innovation Board listed stocks is classified under Level 1 of the fair value hierarchy.
- Ⓑ Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in Equity instruments- Stock in domestic listed company through private placement, As of December 31, 2024, the fair value of the Group's investments in domestic Innovation Board listed stocks, wealth management products, and convertible bonds was classified under Level 2.
- Ⓒ Level 3: For unobservable inputs in measuring assets or liabilities, the Group's investments in limited partnership venture capital funds are classified under Level 3.

B. Financial instruments not measured at fair value

Ⓐ Except for those listed in the table below, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, pledged deposit, bank loan, notes payable, accounts payable and other payables are approximate to their fair values.

	<b>September 30, 2025</b>			
	Fair value			
	Book value	Level 1	Level 2	Level 3
Financial assets	—	—	—	—
Financial liabilities				
Bonds payable (including current portion)	\$ 2,557,683	—	\$ 2,557,682	—

  

	<b>December 31, 2024</b>			
	Fair value			
	Book value	Level 1	Level 2	Level 3
Financial assets	—	—	—	—
Financial liabilities	—	—	—	—

  

	<b>September 30, 2024</b>			
	Fair value			
	Book value	Level 1	Level 2	Level 3
Financial assets	—	—	—	—
Financial liabilities	—	—	—	—

Ⓐ The methods and assumptions of fair value estimate are as follows:

Corporate bond payable: The cash flow expected to be paid is measured by the present value discounted of the market interest rate on the balance sheet date.

C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

Ⓐ The Group measured at fair value by level on the basis of the assets and liabilities:

	<b>September 30, 2025</b>			
	Fair value			
	Book value	Level 1	Level 2	Level 3
<b>Assets</b>				
<u>Recurring fair value measurements</u>

--	---	---	---	---

⑧ The methods and assumptions of fair value estimate are as follows:

- The methods and assumptions the Group used to measure fair value are as follows:

	Listed shares
Market quoted price	Closing price

- Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.

### Equity instruments

Valuation techniques and inputs applied for Level 2 fair value measurement

Financial instruments	Instruments and inputs
Equity instruments	Black-Scholes valuation model : Observing the parameters at the end of the period, such as restriction period, stock price, strike price, volatility, and risk-free interest rate, estimate the put value and liquidity discount to obtain the fair value of the privately placed common stock.
-Stock in domestic listed company through private placement	Market approach: Based on the indicators of comparable business items, products, scale and financial ratios, the listed OTC companies are considered to have similar performance and value. Therefore, the value of the rated company should be estimated from the value of the analogous company. In addition, for companies on the innovation board, their stock market liquidity is not good, and the stock price should consider the liquidity

Equity instruments

-Stocks listed on the domestic Innovation Board

(Investments made prior to December 31, 2024)

discount.

Convertible bonds option

Valuation techniques and inputs applied for Level 2 fair value measurement

Financial instruments

Instruments and inputs

Convertible bonds option

Binomial tree valuation model :

Evaluated by the observable of duration, conversion price, volatility, risk-free interest rate, risk discount rate, and liquidity risk at the balance sheet date.

- D. As PlayNitride Inc. was listed on the Taiwan Innovation Board and the qualified investor restrictions were lifted effective January 1, 2025, its shares have since been traded in the same manner as regular listed stocks. Accordingly, the Group reclassified the fair value measurement of this investment from Level 2 to Level 1 at the end of the month in which the event occurred.
- E. Finance segment is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.
- F. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

Financial instruments	Valuation technique	Significant unobservable input	Relationship of inputs to fair value
CDIB-TEN Capital Limited Partnership - Venture Capital Fund	Net asset value	Not applicable	Not applicable

- G. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorised within Level 3 if the inputs used to valuation models have changed:

Financial assets	Fair value at the reporting date	September 30, 2025			December 31, 2024			September 30, 2024		
		Sensitivity of Profit or Loss		Sensitivity of other comprehensive income	Sensitivity of Profit or Loss		Sensitivity of other comprehensive income	Sensitivity of Profit or Loss		Sensitivity of other comprehensive income
		Input+5%	\$ 828	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Limited Partnership	Input-5%									
Venture Capital Fund			\$ (828)	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

### 13. Supplementary Disclosures

#### (1) Significant transactions information

According to the Regulations Governing the Preparation of Financial Reports by Securities Issuers, the Group shall also disclose the information about important transactions: (The following transactions with consolidated subsidiaries have been eliminated in the accompanying consolidated financial statement.)

No.	Contents	January ~ September 2024
1	Loans to others	Attached table 1
2	Endorsement/guarantees made for others	N/A
3	Holding of significant marketable securities at the end of the period	Attached table 2
4	Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more	N/A
5	Receivables from related parties reaching \$100 million or 20% of paid-in capital or more	N/A
6	Significant inter-company transactions during the reporting period	Attached table 3

Attached table 1 : Loans to others

No. (Note 1)	Lender	Borrower	Account titles	Related party	Maximum balance in current period (Note 2)	Balance, ending (Note 3)	Drawdown	Interest rate range	Nature of loans to others	Amount of transaction	Reasons necessary for offering short-term loans	Allowance for bad debt	Collateral		Limit of loans to particular borrower (Note 5)	Limit of total loans (Note 5)
													Name	Value		
0	MPI	MEGTAS CO.,LTD.	Other receivable accounts-related party	Yes	\$ 45,660	\$45,060	\$ 15,020	4.35%	Short-term loans	—	Working capital	—	—	—	\$939,251	\$3,757,005
1	Chain-Logic International Corp.	MEGTAS CO.,LTD.	Other receivable accounts-related party	Yes	\$ 16,265	\$16,265	\$16,265	3.19%	Short-term loans	—	Working capital	—	—	—	\$ 26,410	\$ 105,640

Note 1: "0" for the Company and each investee are numbered in sequential order starting from 1.

Note 2: The maximum balance of the loan to others accumulated in the current year until the reporting month.

Note 3: The facility of the loan to others still effective until the reporting month

Note 4:

(a) On December 2, 2024, the Board of Directors of the subsidiary Chain-Logic International Corp. resolved to approve a loan to its affiliate MEGTAS CO., LTD. The approved loan amount is NTD \$16,265 thousand, with the contract term from December 12, 2024, to December 11, 2025.

(b) On August 13, 2025, the Company's Board of Directors resolved to approve a loan to its affiliate MEGTAS CO., LTD. The approved loan amount is NT\$ \$45,060 thousand, with the contract term from September 1, 2025, to August 31, 2026.

Note 5: According to the Company's Operating Procedure for Loaning to Others of the subsidiary Chain-Logic International Corp., the limit of loan shall be set in the following manners:

(a) The limit of total loans to others shall be no more than 40% of the net worth in the Company's latest financial statement: NT\$264,099 thousand (the Company's net worth on December 31, 2023) X 40% = NT\$105,640 thousand.

(b) The limit of loan to any single subsidiary shall be no more than 10% of the net worth in the Company's latest financial statement: NT\$264,099 thousand (the Company's net worth on December 31, 2023) X 10% = NT\$ 26,410 thousand.

Note 6 : According to the Company's Operating Procedure for Loaning to Others, the limit of loan shall be set in the following manners:

(a) The limit of total loans to others shall be no more than 40% of the net worth in the Company's latest financial statement: NT\$9,392,512 thousand (the Company's net worth on June 30, 2025) X 40% = NT\$3,757,005 thousand.

(b) The limit of loan to any single subsidiary shall be no more than 10% of the net worth in the Company's latest financial statement: NT\$9,392,512 thousand (the Company's net worth on June 30, 2025) X 10% = NT\$ 939,251 thousand.
